Collection 2022

**Cane-line®**

# An embracing collection for your comfortable life

The outdoor space in our home is more important than ever and plays a bigger role in how we think of "home". We tend to re-think how we decorate and organize the outdoor spaces of our home as we long for an embracing homely feeling in an informal atmosphere. Therefore, the keywords for the news collection 2022 are comfortability, embracement and nature resulting in furniture with high comfort, soft materials and warm colours.

Nature is the most important source of inspiration for Cane-line and here we find shapes and colours for our designs. We have for many years been working thoroughly with CSR and we take our responsibility seriously for safeguarding our nature and its resources. Therefore, we strive to have a CO<sub>2</sub>-neutral headquarter in 2025.

The DNA of Cane-line, "life made comfortable", is reflected in every design and product, offering high quality, all-weather furniture with a long lifespan, low maintenance and high comfort. In all stages of our working process, we always ensure that our furniture is made with the greatest care for our environment and the well-being of people.

We invite you to join our Cane-line Universe and hope you will enjoy the outdoor collection 2022.

Brian Djernes  
CEO, Cane-line A/S

# Because we care

## We are socially responsible

Cane-line products are manufactured with the greatest care for our environment and the well-being of people. We believe that responsibility goes beyond the design and protection of furniture. Our production is committed to a healthy environmental policy and an ongoing focus on minimizing our societal and environmental impact.

This means among others that no child labour is allowed and that wage levels are fair and in accordance with local legislation. In addition, we are very conscious about using responsibly sourced materials and recycled materials as well as reducing material waste.

Cane-line is certified by ISO14001:2015 and audited by SMETA by DNV-GL. Our corporate conduct and activities have earned international certifications submitting us to external control on an on-going basis. This is your guarantee that we are committed to safeguarding people and the environment.

The UN Global Compact is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with ten universally accepted principles.

This printed matter is carbon compensated according to ClimateCalc. Offsets purchased from: South Pole Carbon. Cert. no. CC-000033/DK

Cane-line is certified by the international certification DNV-GL (Det Norske Veritas): ISO14001:2015.

Cane-line is audited by DNV-GL (Det Norske Veritas): SMETA (Sedex Members Ethical Trade Audit). SMETA is the world's most commonly used ethical audit format.

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indonesia's timber legality assurance system) certification system.

As a manufacturer of furniture, we believe our greatest impact comes from addressing UN Sustainable Development goals no. 8 and 12. To us, the SDGs make us even more motivated to work towards a more responsible business.

## Comfort is our core value

Our core value is comfort in all aspects of our furniture. We have used countless hours developing and choosing the right designs, technology and materials. Comfort for us is how well you sit or lay, how smooth our furniture functions, the very low maintenance, our QuickDry & Airflow system, the easy cleaning and the long lasting materials. Our mission "life made comfortable" is total comfort for you.

## All-weather furniture

Cane-line designs can be used all over the world and under any climatic conditions. The strong frames, UV-resistant materials and quick drying cushions can stay out in glaring sun, pouring rain or frost. The materials in our outdoor collection withstand large temperature differences and season changes. To prolong product lifespan, we recommend that furniture is placed indoor during winter or covered with one of our furniture covers. The entire outdoor collection is easy to maintain, however ordinary cleaning of your furniture will keep it looking at its best for years and prolong its lifespan.

All products with the QuickDry & Airflow system symbol have cushions with QuickDryFoam®. Read more on page 215.

# Meet our designers

Cane-line works with leading Danish designers. They all share deep roots in the Danish design tradition built on craftsmanship, quality and distinctive expression. They also share an understanding of our Cane-line vision "life made comfortable", which is integrated in every design.

## Foersom & Hiort-Lorenzen MDD

Johannes Foersom and Peter Hiort-Lorenzen MDD are two of Scandinavia's most renowned and successful furniture designers. Their goal is to create long-lasting value, and to stimulate a healthy development for people and their surroundings. They strive towards the highest quality in cooperation, process and product, and believe that knowledge and innovation are fundamental. The impressive use of exibility makes the furniture appear as small architectonic wonders.

## Strand+Hvass

Christina Strand (MDD) and Niels Hvass (MAA) are part of the new generation of Scandinavian designers. They believe that design itself is a strategy that can improve the conditions of human life, the environment and personal experiences. Additionally, they believe that design can be used as a tool to develop the competitive power and economic growth of society. Their design is usercentered and deeply rooted in the Scandinavian culture. Simplicity and well-balanced lines are the cornerstones of their work.

## Welling/Ludvik

The design duo Welling/Ludvik, Hee Welling and Gudmundur Ludvik, are contributing to the renewal of environmentally-friendly design centered around personal experience. They are defined by a pure aesthetic, stripping away excess and letting each detail serve a functional purpose. They aim to achieve the best possible solution as seen from a number of perspectives. Comfort, materials, construction, pricing and environment are all defining factors in their approach to design.

## byKATO

ByKATO, Karl Rüdiger Rossell and Tonny Glismand, are dedicated to creating contemporary, highly usable products for everyday living. They aim to bridge the gap between commercial, industrial design and high-quality craftsmanship by using honest and justifiable materials and paying careful attention to even the smallest detail. Their mantra is to design products, which they would like to have themselves so they always take starting point in their own needs. In this way it all comes from the heart and the required enthusiasm is always present.

## Søren Rose Studio

Søren Rose Studio is well-known for his minimalist, Scandinavian style with strings into a modern and cosmopolitan expression. The location of the design studio in New York is a source of inspiration to a raw design style that goes aesthetically well in line with the Scandinavian design tradition. The combination has been refined by the design studio through its many years of existence on the international design scene.

## Cane-line design team

At Cane-line the core value for good design is comfort and we believe in the optimal mix between comfort aesthetics and functionality. Our internal design team is working with this in top of mind to create an optimal collection with unique products adding value to life and making life more comfortable. Cane-line design team is also working closely with our external designers.

A photograph of two "Peacock Lounge" chairs and a small side table outdoors. The chairs have a distinctive fan-shaped backrest made of light-colored woven material and light blue-grey cushions. They are placed on a patterned stone-paved floor against a light-colored wooden wall. A small round side table with black metal legs is positioned between them, holding a dark vase with red foliage and a small white bowl.

## Solution dyed polyester

Solution dyed polyester is a 100% solution dyed fibre material, which, due to the special manufacturing process, means that the colour permeates the entire fibre. The fabric has a superior colour fastness, making it fade resistant. The colour is extremely uniform, and the fabric is both UV resistant and water repellent, as well as resistant to powdery mildew. The fabric ventilates effectively, repelling condensation and moisture. In case of stains, we recommend pre-treating the fabric by washing it in warm water with a powerful detergent (e.g. Tide, Persil, Vanish). The fabric can then be washed at 30 degrees and subsequently air dried. It is very important to check the fabric for stains and treat the specific stain before washing, as heat can set the stain, making it difficult to remove. High temperatures in the washing machine or a tumble dryer can cause the fibres to melt together, shrink or become misshapen. Water that is too hot can create permanent creases during the spin cycle.

## Parasol base

# Furniture covers

Cane-line outdoor furniture is weather resistant, but changing weather and falling leaves leave their marks. By using protective covers, you save time on cleaning, keep your furniture looking sharp and prolong their life span. **MAKE SURE NOT TO COVER WET FURNITURE. DRY BEFORE COVERING.**

All Cane-line parasols (except Hyde)

Hyde luxe tilt parasol, Hyde luxe parasol, Hyde parasol, Major parasol

Cane-line covers are made of a strong solution dyed polyester fabric, which protects the furniture during the winter. It is advisable to check covers after heavy falls of rain/snow and remove any water collected on top to ensure that the furniture remains properly covered. For further information please visit [www.cane-line.com/collections/covers](http://www.cane-line.com/collections/covers).

# QuickDry & Airflow system

Cane-line QuickDry & Airflow system offers cushions with our special QuickDryFoam®. The unique cushion composition with QuickDryFoam® ensures a quick drainage after heavy rain and an effective air circulation in humid weather conditions. The benefit is dry cushions approximately one hour after downpour and no risk of mould building inside the cushions due to the constant air circulation.

We recommend to store cushions indoors in a ventilated room or in one of our cushion boxes during winter season or when not in use for a longer period.

For more information regarding maintenance and cleaning: [www.cane-line.com](http://www.cane-line.com).

All series with the QuickDry & Airflow system logo are delivered with QuickDryFoam®. All other cushions are delivered with our high quality Cane-line foam (cold foam).

## Cushion composition

Approximately one hour after rainshowers your cushions are dry, and you can sit comfortable in your furniture again.

After a downpour, place the cushions in an upright position so the water can drain.

# Technical information

## Materials & care

### Cane-line Weave®

Cane-line Weave® is a fibre made from highly durable, solution dyed polyethylene (PE), which is ideal for outdoor use because it withstands moisture and large variations in temperature. Both the structure of the fibre and the weave ensure elasticity and optimal sitting comfort. The durable material is UV-resistant and requires minimal maintenance. Cane-line Weave® has been developed to withstand climate conditions all over the world and the material will retain its colour and shape for many years. Cane-line Weave® fibre can vary slightly in colour, creating a nice contrast in the surface of the weave. This gives the furniture a unique, natural and exclusive look.

### Cane-line Rope

Cane-line Rope is a combination of a woven Selected PP covering (a thermoplastic fibre) over a core of Cane-line Weave®. The material is elastic and has a soft surface that acts like a fabric. Avoid pulling/pushing the elastic material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

### Cane-line Soft Rope

Cane-line Soft Rope is a weaved Selected PP fibre. The material has a soft surface that acts like a fabric. Avoid pulling/pushing the material too hard as this may cause it to lose its shape. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

### Cane-line Tex®

Cane-line Tex® is a coated polyester material that is ideal for outdoor use and requires minimal maintenance. Cushions made from Cane-line Tex® come with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

### Cane-line SoftTouch®

It is a 48% Coated polyester sling fabric/ 52% solution dyed acrylic fabric. Cane-line SoftTouch® combines the strength of Cane-line Tex® with the comfortable softness of the Sunbrella fabric, resulting in a soft yet durable surface. Cushions made from Cane-line SoftTouch® come with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

### Cane-line Natté

It is a 100% solution dyed acrylic fabric. Cane-line Natté is a unique material produced by Sunbrella for Cane-line. Cane-line Natté combines the strength of normal all weather fabrics with the comfortable softness of the traditional Sunbrella fabrics, resulting in a soft yet durable fabric. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

### Cane-line Virtue

It is a 100% solution dyed acrylic fabric. Cane-line Virtue is UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position. This weatherproof material withstands changing weather conditions, is UV-resistant which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners.

### Cane-line AirTouch

Cane-line AirTouch fabric combines the strength of Cane-line SoftTouch with the softness of Cane-line Natté produced by Sunbrella. It is a 100% solution-dyed acrylic fabric. Cushions made from Cane-line AirTouch are produced with a QuickDryFoam® core, ensuring maximum drainage and air circulation. This allows the cushions to dry faster after having been exposed to rain and moisture. The QuickDryFoam® core also has anti-bacterial protection, reducing the risk of mould and mildew forming on the cushion.

### Selected PP

100% polypropylene (PP) and UV-resistant. In case of food or drink stains, wash the spot immediately with warm soapy water and allow the pillow to dry in an upright position.

For more thorough cleaning, all pillow covers can be removed and machine-washed at 30°C. Make sure the cover is completely dry before putting it back on the pillow.

# Materials & care

## Cane-line Teak

Cane-line teak is approved and forested under the SVLK – Sistem Verifikasi Legalitas Kayu (Indonesia's timber legality assurance system) certification system. Teak is a hardwood that is ideal for outdoor use due to its high oil content. Our teak material is grade A, meaning it is the best quality and characterised by the close grain and the warm honey golden-brown colour. The wood acquires a silver-grey patina over time. If you wish to retain the original golden-brown colour, we recommend treating teak furniture with a recommended teak protector. See Cane-line care products.

## Powder coated aluminium

All our aluminium furniture is powder coated. Powder coating serves as a protective layer that is tinted in a variety of colours. Aluminium furniture is ideal for use outdoors as well as indoors.

## Stainless Steel

Stainless steel is extremely weatherproof. However, tarnishing can occur in the form of flash rust. This can be removed by using a stainless steel cleaner. Regular cleaning with soapy water helps to protect the surface of the stainless steel and thus minimise the effects of chlorine, etc. It is also advisable to wipe the frame with acid-free oil at least twice yearly to minimise tarnishing.

## Powder coated hot dip galvanized steel

All our steel furniture is hot-dip galvanized, which by far is the best corrosion protection of steel. Unlike only using paint which adheres to the surface of the steel, the galvanizing creates a hard-wearing and resistant surface with extraordinarily long life and requires only a minimum of maintenance. All our galvanized steel is afterwards powder coated for additional protection and aesthetic purposes.

## Glass

All glass tops are made of toughened glass. The glass has been through a process, where it has been heated to approx. 650 degrees and then cooled. This curing of the glass makes it up to 5 times stronger than ordinary glass and less prone to cracking and breaking.

## Ceramic

The ceramic tops are made of porcelain, which is an extremely strong material that can be left outdoors all year round. They are made using natural materials, so there may be small variations in colours between the tops.

## HPL / high pressure laminate

Compact laminate is a very suitable material for outdoor use. The material is resin-impregnated paper, compressed under very high pressure creating a strong top with a scratch-resistant surface. These table tops require basically no maintenance and can remain outdoors all year round. Compact laminate will naturally fade slightly at the edges over time. In order to maintain the deep black colour, the edges can be re-freshed up by rubbing a little linseed oil on them. It is recommended that you cover the table with a furniture cover in the autumn and winter period.

## Cane-line HI-Core

Cane-line "Hi-Core" Stone is an innovative and durable Hi-tech composite core material developed specially for all weather outdoor use. The components are mainly acrylic, which gives high durability and abrasion resistance. Cane-line HI-Core has an elegant smooth and soft surface that rejects moisture, dirt and bacteria. We recommend that you cover the table with a furniture cover during the autumn and winter period.

## Cast Iron

Cast iron from Cane-line is composed of alloy of iron, carbon and silicon, which together provide a material particularly suitable for products that require great strength and heat resistance. Continuous maintenance is important, as otherwise over time, you will see rust formation on the surface in the places where the paint has been scratched and worn. Make sure to regularly remove ash from the fire pit, wash it off in clean water and dry it thoroughly when the items are cold. The product gets hot during use, so do not touch the product without gloves that can withstand the heat, and be aware of local legislation regarding the use of fire pits. Use of the fire pit is at your own risk (both to yourself and others).

## CANE-LINE CARE

# Cane-line Care

Teak is a tropical wood material that has a beautiful golden brown colour. However, the teak material will, gain a silver-grey patina over time if not treated. Depending on the environment, the teak material can change colour already after a few weeks. If you wish to preserve the original homey golden brown colour, use Cane-line Teak Protector. A protector that preserves the nice and warm golden-brown colour of your teak furniture.

### Teak Cleaner

A Cleaner & Brightener in one.

To clean and restore discoloured and dark grey teak, this water-based formula is not only a high concentration cleaner, but also a brightener, which brings back the original colour of new teak.

Classified as non-hazardous.

#### Coverage:

m<sup>2</sup>: 10 - 12

Sq. ft.: 110 - 130

Chairs: 10 - 12

Tables (240 cm. / 80"): 2 or 3

Sofas / Benches (240 cm. / 80"): 3 or 4

Content: 1000 ml.

### Teak Protector - Honey brown

Maintain the original honey brown colour for a longer time.

Teak protector maintains the golden brown colour for a long time:

- Easy to apply
- Up to 4 times longer than teak-oil
- Up to twice as long as teak sealer.

This protector gives teak a nicer, more natural colour after application

#### Coverage:

m<sup>2</sup>: 8 - 10

Sq. ft.: 90 - 110

Chairs: 8 - 10

Tables (240 cm. / 80"): 2

Sofas / Benches (240 cm. / 80"): 3

Content: 1000 ml.

### Green Scrubbing Pads & Padholder

For cleaning teakwood.

### White Application Cloths

For applying protectors.

## PROJECT CASES

### When comfort matters

At Cane-line, we experience that accommodating and flexible furniture arrangements are a must for many of our international project partners. Our partners have high demands for quality, comfort and aesthetics. We match these needs by providing them with customised solutions for their outdoor spaces.

Cane-line furniture is designed for heavy use over longer periods of time, yet still only require minimal maintenance even in areas where large crowds come and go. Our furniture is designed to suit your needs, whether it is for formal meeting points, comfortable waiting spaces or relaxed lounge areas.

Our Danish design lives up to the brand identity of our project partners and our corporate conduct, and operations match international expectations about Corporate Social Responsibility (CSR). As a result, our customers include a wide variety of companies in the public and private sector, institutions, exclusive hotels, cruise lines and resorts.

See more at [www.cane-line.com](http://www.cane-line.com)

## Outdoor Collection 2022

Cane-line is a Danish design company with more than 30 years of experience in designing and manufacturing functional and comfortable furniture.

Life made comfortable is the very essence of Cane-line. All over the world our mission is the same – to make life comfortable and add value to life and the places where you unwind and relax. We are constantly focusing on quality, innovative technologies and comfort in both products and life to ensure that our furniture is made with the greatest care for the environment and the well-being of people.

Cane-line outdoor collection is designed and manufactured with the purpose to have a comfortable outdoor living lifestyle. The all-weather furniture offers maximum comfort and minimal maintenance.
