Innovative furniture product concepts are brought to life by a design team that develops and outlines creative concepts in-house coherently with the stylistic language of all the Extendo collections.

I concetti innovativi di prodotto d'arredo prendono vita grazie ad un design team che in-house sviluppa e dettaglia i concepts creativi mantenendo coerenza nel linguaggio stilistico in tutte le collezioni extendo.

Les concepts innovants de produits d'ameublement prennent vie grâce à une équipe de conception qui développe des concepts créatifs en interne en maintenant la cohérence du langage stylistique de toutes les collections Extendo.

Die innovativen Konzepte für Einrichtungsprodukte entstehen dank einem Design-Team das in-house die kreativen Konzepte entwickelt und ausführlich beschreibt und dabei in der stilistischen Sprache in allen extendo-Kollektionen die Kohärenz beibehält.

Los innovadores conceptos de productos de mobiliario cobran vida gracias a un equipo de diseño interno que desarrolla y detalla los conceptos creativos manteniendo un lenguaje estilístico coherente en todas las colecciones de extendo.

The passion for materials, mechanical design and the search for new functions applied to furnishing systems, give life to the extendo patents, invention and design patents.

La passione per i materiali, la progettazione meccanica e la ricerca di nuove funzionalità applicate ai sistemi d'arredo, danno vita ai brevetti extendo, brevetti di invenzione e di design.

La passion pour les matériaux la conception mécanique et la recherche de nouvelles fonctionnalités appliquées aux systèmes d'ameublement donnent vie aux brevets Extendo des brevets d'invention et de design.

Die Leidenschaft für die Materialien das maschinelle Entwerfen und die Suche nach neuen Zweckmäßigkeiten für die Einrichtungssysteme rufen die Patente extendo ins Leben Patente der Erfindung und des Designs.

La pasión por los materiales el diseño mecánico y la búsqueda de nuevas funcionalidades aplicadas a los sistemas de mobiliario dan lugar a patentes Extendo de invención y de diseño.

When we conceptualize a new product, we look for the “perfect balance” between the materials it is made from, the design of the forms and everyday practicality.

Quando immaginiamo un nuovo prodotto, ricerchiamo “l'equilibrio perfetto” tra i materiali che lo compongono, il design delle forme e la funzionalità nel quotidiano.

Lorsque nous imaginons un nouveau produit nous recherchons « l'équilibre parfait » entre les matériaux qui le composent ses formes et sa fonction au quotidien.

Wenn wir uns ein neues Produkt vorstellen suchen wir „das perfekte Gleichgewicht“ zwischen den Materialien aus denen es besteht dem Design der Formen und der Zweckmäßigkeit im Alltag.

Cuando imaginamos un nuevo producto buscamos el “equilibrio perfecto” entre los materiales que lo componen el diseño de sus formas y su funcionalidad cotidiana.

The project team develops and fine tunes the new product concept. The specific know-how of the design and industrialization teams is pooled during the 3D design stage.

Il team di progetto sviluppa ed affina il nuovo concept di prodotto. La fase di progettazione 3D prevede la condivisione delle specifiche competenze dei team di design ed industrializzazione.

L'équipe de projet développe et affine le nouveau concept de produit. La phase de conception 3D prévoit un partage des compétences spécifiques des équipes de conception et d'industrialisation.

Das Projektteam entwickelt und verfeinert das neue Produktkonzept. Die 3D-Entwurfsphase sieht das Teilen von spezifischen Kompetenzen der Design- und des Industrialisierungsteams vor.

El equipo del proyecto desarrolla y perfecciona el nuevo concepto del producto. La fase de diseño en 3D implica la puesta en común de las competencias específicas del equipo de diseño e industrialización.

Extendo sources raw materials that meet the highest technical and quality standards. Using these materials we make thousands of wood, steel, aluminium and glass components for semi-finished products which are then stored in our warehouses.

Extendo acquista le materie prime che soddisfano i migliori standard tecnici e qualitativi direttamente alla fonte. Da esse vengono prodotti migliaia di componenti in legno, acciaio, alluminio e vetro sottoforma di semilavorati stoccati presso i nostri magazzini.

Extendo achète les matières premières répondant aux meilleurs standards techniques et qualitatifs directement à la source. Celles-ci permettent la production de milliers de composants en bois acier aluminium et verre sous forme de produits semi-finis stockés dans nos entrepôts.

Extendo kauft die Rohstoffe die den besten technischen und qualitativen Standards entsprechen direkt an der Quelle. Aus diesen werden tausende Komponenten aus Holz Stahl Aluminium und Glas hergestellt in Form von Halbfertigprodukten die bei uns gelagert werden.

Extendo adquiere materias primas que cumplen las normas técnicas y de calidad más exigentes directamente de la fuente. A partir de ellas se fabrican miles de componentes de madera acero aluminio y vidrio en forma de productos semiacabados almacenados en nuestros almacenes.

In-house production capitalizes on the experience and cooperation of partner artisans whose workshops are located within a short radius of our manufacturing plant. In this way know-how is shared and the steps between the production chain are shortened.

La produzione interna integra l'esperienza e la cooperazione di artigiani partner i cui laboratori sono situati a breve raggio dalla nostra sede produttiva. Questo consente una condivisione del know-how ed una rapidità tra i diversi step di filiera.

La production interne intègre l'expérience et la coopération d'artisans partenaires dont les ateliers sont situés à courte distance de notre site de production. Cela permet un partage de savoir-faire et une rapidité entre les différentes étapes de la chaîne d'approvisionnement.

Die interne Produktion integriert die Erfahrung und die Zusammenarbeit mit Partnerhandwerkern deren Werkstätten im nahen Umkreis von unserer Produktionsstätte liegen. Das ermöglicht das Teilen des Knowhows und Schnelligkeit zwischen den verschiedenen Stufen der Produktionskette.

La producción interna incorpora la experiencia y la cooperación de socios artesanos cuyos talleres están situados en un radio de corto alcance respecto de nuestro centro de producción lo que permite compartir conocimientos técnicos y rapidez entre los distintos pasos de la cadena de producción.

The choice of the raw material guides the creative process from the outset. The Extendo project team pays great attention to the search for the materials to use for each product.

In this project stage the client choose the materials finishes and dimensions of the product they want to buy. During the production process this information leads to the personalization of the finished product.

In fase di progetto il cliente sceglie i materiali le finiture e le dimensioni del prodotto che intende acquistare. Tali informazioni nei diversi step produttivi daranno vita alla personalizzazione del prodotto finale.

Lors de la phase de conception le client choisit les matériaux les finitions et les dimensions du produit qu'il envisage d'acheter. Ces informations durant les différentes étapes de production permettront de personnaliser le produit final.

In der Entwurfsphase wählt der Kunde die Materialien die Beschichtungen und die Maße der Produkte die er kaufen möchte. Diese Informationen in den verschiedenen Produktionsphasen führen zur Individualisierung des Endprodukts.

En la fase de diseño el cliente elige los materiales los acabados y las dimensiones del producto que desea adquirir. Esta información en las distintas fases de producción dará lugar a la personalización del producto final.

What makes Extendo products unique

Passion for the study of materials, forms and functions, is the heart of the Extendo products' design and invention patents.

La passione per la ricerca sui materiali, le forme e le funzioni, è la fonte dei brevetti di design ed invenzione dei prodotti extendo.

La passion pour la recherche sur les matériaux les formes et les fonctions est à l'origine des brevets de conception et d'invention des produits Extendo.

Die Leidenschaft für die Forschung über die Materialien die Formen und die Zwecke ist die Quelle der Patente des Designs und der Erfindung der Produkte von extendo.

La pasión por la investigación de materiales formas y funciones es el origen de las patentes de diseño e invención de los productos Extendo.

Materials and technologies

The project team uses state-of-the-art materials and transformation technologies to create the new collections.

Il project team impiega i materiali e le tecnologie di trasformazione più innovativi per dare vita alle nuove collezioni.

L'équipe du projet utilise les matériaux et les technologies de transformation les plus innovants pour créer les nouvelles collections.

Das Projekt-Team verwendet die innovativsten Materialien und Verarbeitungstechnologien um die neuen Kollektionen zu realisieren.

El equipo del proyecto utiliza los materiales y tecnologías de procesamiento más innovadores para crear nuevas colecciones.

Design and invention patents

Design as a distinctive feature

The design of Extendo's products is a distinctive feature that is common to all our collections.

Il design dei prodotti extendo è un segno distintivo che accomuna tutte le nostre collezioni.

Le design des produits Extendo est une caractéristique qui unit toutes nos collections.

Das Design der Produkte von extendo ist ein Markenzeichen das alle unsere Kollektionen gemeinsam haben.

El diseño de los productos Extendo es un sello distintivo de todas nuestras colecciones.

Being able to choose the size materials and finishes of each product creates harmony between furnishings and interior design.

La possibilità di poter scegliere le dimensioni i materiali e le finiture di ogni prodotto crea armonia tra gli arredi e l'architettura d'interni.

La possibilité de choisir les dimensions les matériaux et les finitions de chaque produit permet d'harmoniser l'ameublement et l'architecture intérieure.

Die Möglichkeit die Maße die Materialien und die Beschichtungen wählen zu können schafft Harmonie zwischen der Einrichtung und der Innenarchitektur.

La posibilidad de poder elegir el tamaño el material y el acabado de cada producto crea una armonía entre el mobiliario y la arquitectura interior.

Quality and competitiveness

Our warehouses for components and raw materials purchased at the source of the production chains guarantee the quality and competitiveness of the products in the collections.

I vasti magazzini di componenti e le materie prime acquistate alla fonte delle filiere produttive garantiscono qualità e competitività ai prodotti delle collezioni.

Les vastes entrepôts de composants et de matières premières achetés à la source des chaînes de production garantissent qualité et compétitivité aux articles composant les collections.

Die großen Lager mit Komponenten und Rohstoffen die an der Quelle der Produktionsketten gekauft werden gewährleisten den Produkten der Kollektionen Qualität und Wettbewerbsfähigkeit.

Los amplios stocks de componentes y materias primas adquiridos en el origen de las cadenas de producción garantizan la calidad y competitividad de los productos de las colecciones.

Extendo green's path

Whether aluminium steel wood or glass the choice of raw material is a fundamental part of the creative process from the outset.

Alluminio acciaio legno vetro la scelta delle materie prime è parte integrante del processo creativo sin dalla sua genesi.

Aluminium acier bois verre le choix des matières premières fait partie intégrante de notre processus de création dès sa genèse.

Aluminium stahl holz glas die wahl der rohstoffe ist wesentlicher bestandteil des kreativen prozesses schon von anfang an.

Aluminio acero madera vidrio la elección de las materias primas forma parte del proceso creativo desde su génesis.

For our products we use raw materials partially or completely from re-use processes and which are in turn recyclable.

Per realizzare i nostri prodotti utilizziamo materie prime che derivano in parte o totalmente da un processo di riutilizzo e sono a loro volta riciclabili.

Pour fabriquer nos produits nous utilisons des matières premières qui proviennent en partie ou totalement d'un processus de réutilisation et sont à leur tour recyclables.

Zur Realisierung unserer Produkte verwenden wir Rohstoffe die zum Teil oder ganz aus einem Wiederverwendungsprozess stammen und sind ihrerseits recycelbar.

Para fabricar nuestros productos utilizamos materias primas parcial o totalmente reutilizables y reciclables.

The entire production chain uses energy from renewable sources either self-produced or procured from certified sources.

L'intera filiera produttiva impiega energia derivante da fonti rinnovabili, auto-prodotta o acquistata da fonti certificate.

L'ensemble de la chaîne de production utilise de l'énergie provenant de sources renouvelables autoproduite ou achetée auprès de sources certifiées.

Die gesamte Produktionskette nutzt Energie aus erneuerbaren Energiequelle selbst erzeugt oder von zertifizierter Quelle gekauft.

Toda la cadena de producción utiliza energía procedente de fuentes renovables de producción propia o comprada a fuentes certificadas.

We reduce the emissions from the transport of raw materials and semi-finished products by producing them in-house or by using manufacturing partners located within a radius of 15 km.

Riduciamo le emissioni derivanti dai trasporti di materie prime e semilavorati producendo il 100% in extendo e con partners produttivi nel raggio di 15km.

Nous réduisons les émissions provenant du transport des matières premières et des produits semi-finis en concentrant l'intégralité de la production dans les locaux d'Extendo et en collaboration avec des partenaires de production situés dans un rayon de 15 km.

Wir reduzieren die Emissionen für den Transport der Rohstoffe und der Halbfertigprodukte da wir alles bei extendo und mit Produktionspartnern im Umkreis von 15 km herstellen.

Reducimos las emisiones del transporte de materias primas y productos semiacabados produciendo el 100% dentro de la empresa y con socios de producción en un radio de 15 km.

Materials mix in the annual production

Green materials

The recycled raw materials take on a new life as furnishing components, designed to last over time.

Le materie prime riciclate prendono nuova vita sotto forma di componenti d'arredo progettati per durare nel tempo.

Les matières premières recyclées prennent une nouvelle vie sous la forme d'éléments de mobilier conçus pour durer dans le temps.

Die recycelten Rohstoffe erhalten als Einrichtungskomponenten neues Leben und sie sind entwickelt um eine lange Lebensdauer zu haben.

Las materias primas recicladas cobran nueva vida en forma de componentes de mobiliario diseñados para durar.

The NEXUS collection is configured by combining different carcass modules. The rounded aluminium profile brings together the geometries of the front panels, side panels and top panels, creating a compact and elegant volume. Each module features a concealed cable-management system for wiring the entire composition.

NEXUS - design 2025

La collezione NEXUS si configura attraverso l'accostamento dei diversi moduli scocca. Il profilo in alluminio arrotondato raccorda le geometrie di frontali, fianchi e top, dando vita a un volume compatto ed elegante. Ogni modulo è dotato di un sistema passacavi nascosto per il cablaggio dell'intera composizione.

La collection NEXUS se configure par l'association de différents modules de caisson. Le profilé en aluminium arrondi relie les géométries des façades, des flancs et des plateaux supérieurs, créant un volume compact et élégant. Chaque module est équipé d'un système passe-câbles dissimulé pour le câblage de l'ensemble de la composition.

Die Kollektion NEXUS lässt sich durch die Kombination verschiedener Korpusmodule konfigurieren. Das abgerundete Aluminiumprofil verbindet die Geometrien von Fronten, Seitenwangen und Abdeckplatten zu einem kompakten und eleganten Volumen. Jedes Modul ist mit einem verdeckten Kabelmanagementsystem für die Verkabelung der gesamten Konfiguration ausgestattet.

La colección NEXUS se configura mediante la combinación de diferentes módulos de carcasa. El perfil de aluminio redondeado une las geometrías de los frontales, los costados y las tapas superiores, creando un volumen compacto y elegante. Cada módulo está equipado con un sistema pasacables oculto para el cableado de toda la composición.

EWS. A living system with multiple installation possibilities: suspended on the wall, with or without floor support, floor standing, wall mounting and free standing. The vertical profiles allow positioning of containers and shelves to the centimetre. Any panels used can be easily removed to access TV, audio systems and lamp cables.

EWS - design 2022

EWS è un sistema living dalle molteplici possibilità di installazione: sospeso a parete, con appoggio a pavimento, da pavimento a soffitto ed autoportante. I profili verticali consentono il posizionamento in altezza di contenitori e ripiani al centimetro. I pannelli di rivestimento utilizzati anche parzialmente possono essere rimossi agevolmente per poter accedere ai cavi di tv, impianti audio, lampade.

Un système pour salon avec de multiples possibilités d'installation: suspendu au mur, avec ou sans support au sol, du sol au plafond et autoporteur. Les profils verticaux permettent de positionner les conteneurs et les étagères en hauteur, au centimètre près. Les panneaux d'embellissement utilisés, même partiellement, peuvent être facilement retirés pour accéder aux câbles des téléviseurs, systèmes audios, lampes.

Ein Living-System mit zahlreichen Montage-Möglichkeiten: hängend an der Wand, sowohl mit als auch ohne Stütze auf dem Boden, vom Boden bis zur Decke und selbsttragend. Die vertikalen Profile ermöglichen die Positionierung auf den Zentimeter der Behälter und der Einlegeböden. Die auch zum Teil verwendeten Überzugplatten können leicht entfernt werden, um zu den Kabeln von TV, Audioanlagen, Lampen zu greifen.

Un sistema con múltiples posibilidades de instalación: colgado en la pared, con o sin soporte en el suelo, de suelo a techo y autónomo. Los perfiles verticales permiten posicionar en altura los contenedores y las estanterías con una precisión de un centímetro. Los paneles de recubrimiento utilizados parcial o totalmente pueden retirarse fácilmente para acceder a los cables de la televisión, los sistemas de audio y las lámparas.

The patented extendo SYSTEM consists of two extendable aluminium profiles that can be adapted to environments of various heights. Using the foldaway lever, the profiles can be blocked at the desired height and compressed between floor and ceiling, without having to use any kind of pre-fixing tool.

SYSTEM - design 2003

Il sistema brevettato SYSTEM è formato da due profili in alluminio estensibili, adattabili alle diverse altezze degli ambienti. Agendo sulla leva a scomparsa, i profili si bloccano all'altezza desiderata e si comprimono tra pavimento e soffitto, senza l'utilizzo di alcun utensile o pre-fissaggio.

Le système breveté SYSTEM est constitué de deux profilés extensibles en aluminium pouvant être adaptés aux différentes hauteurs des milieux. En agissant sur le levier escamotable, les profilés se verrouillent à la hauteur souhaitée et se compriment entre plancher et plafond, sans utiliser aucun outil ou préfixation.

Das patentierte SYSTEM extendo besteht aus zwei ausziehbaren Aluminium-Profilen, die an unterschiedliche Raumhöhen angepasst werden können. Durch einen versenkbaren Hebel werden die Profile auf der gewünschten Höhe blockiert und zwischen Fußboden und Zimmerdecke ohne Werkzeug oder Vor-Befestigung komprimiert eingesetzt.

El sistema patentado SYSTEM está formado por dos perfiles de aluminio extensibles, adaptables a las distintas alturas de los ambientes. Actuando sobre la palanca escondida, los perfiles se bloquean a la altura deseada y se comprimen entre el suelo y el techo, sin que sea necesario utilizar ninguna herramienta o fijación previa.

ATELIER is an extensive system composed of steel modules and wooden storage units, which can be stacked and placed side by side as desired, positioned on bases or wall-mounted. The collection is now also available with Office modules designed to accommodate document holders.

ATELIER - design 2018

ATELIER è un ampio sistema composto da moduli in acciaio e contenitori in legno, che possono essere sovrapposti e affiancati a piacere, posizionati su basi o sospesi a parete. La collezione è ora disponibile anche con moduli Office per l'inserimento di portadocumenti.

ATELIER est un vaste système composé de modules en acier et de caissons en bois, qui peuvent être superposés et juxtaposés à volonté, posés sur des bases ou fixés au mur. La collection est désormais également disponible avec des modules Office destinés à accueillir des porte-documents.

ATELIER ist ein umfassendes System aus Stahlmodulen und Holzkorpuselementen, die nach Belieben übereinandergestapelt und aneinandergereiht, auf Sockeln platziert oder wandhängend montiert werden können. Die Kollektion ist nun auch mit Office-Modulen zur Aufnahme von Dokumentenablagen erhältlich.

ATELIER es un amplio sistema compuesto por módulos de acero y contenedores de madera, que pueden superponerse y juxtaponerse libremente, colocarse sobre bases o suspenderse en la pared. La colección también está disponible ahora con módulos Office para integrar portadocumentos.

The patented XY system enables you to position the shelves along vertical Y-axis and the pairs of load-bearing profiles along horizontal X-axis. Positioning along X and Y is completely free, without any preset positions. This creates a load-bearing framework that can be completed with backs, sides, tilting or leaf doors, drawer units.

XY - design 2009

Il brevetto XY consente di posizionare i ripiani lungo l'asse verticale y e le coppie di profili portanti lungo l'asse orizzontale X. Il posizionamento in X ed Y avviene in continuo, senza posizioni predefinite. Ciò costituisce un'ossatura portante in grado di essere allestita con schiene, fianchi, ante a ribalta, ante a battente, cassettiere.

Le brevet XY permet de positionner les étagères le long de l'axe vertical Y et les paires de profilés portants le long de l'axe horizontal X. Le positionnement suivant X et Y s'effectue en continu, sans positions prédéfinies. Ceci réalise une structure portante susceptible d'être équipée de fonds, côtés, portes à rabattant, portes à battant, kits de tiroirs.

Das Patent XY ermöglicht es, die Böden längs der vertikalen Y-Achse und die tragenden Profilpaare längs der horizontalen X-Achse zu positionieren. Dabei kann die Positionierung auf X und Y an jeder Stelle ohne voreingestellte Positionen erfolgen. Auf diese Weise wird eine tragende Struktur gebildet, die mit Rück- und Seitenwänden, Klapp- und Flügeltüren, Schubladenelementen.

La patente XY permite colocar los estantes a lo largo del eje vertical Y y las parejas de perfiles portantes a lo largo del eje horizontal X. La colocación en X e Y se produce en continuo, sin posiciones previamente definidas. Esto forma un almacén portante capaz de albergar dorso, laterales, puertas abatibles, puertas de batiente, cajoneras.

The frame in extruded aluminium forming the support structure of MONOLITH gives an extremely firm structure with free configuration of the inner partitions. This composition system forms a very simple set to assemble and re-configure, without doubling the thicknesses of its inner sides.

MONOLITH - design 2016

La scocca in alluminio estruso che costituisce l'ossatura portante di MONOLITH, consente grande rigidità strutturale e una libera configurazione delle partizioni interne. Tale sistema costruttivo forma un insieme molto semplice da assemblare e riconfigurare, evitando di raddoppiare gli spessori dei fianchi al suo interno.

Le châssis en aluminium extrudé qui constitue l'ossature portante de MONOLITH, permet une grande rigidité structurelle et une libre configuration des divisions internes. Ce système de construction forme un ensemble très simple à assembler et reconfigurer, en évitant de doubler les épaisseurs des côtés à l'intérieur.

Der Aufbau aus extrudiertem Aluminium, der das tragenden Gerüst des MONOLITH darstellt, bietet eine bedeutende, strukturelle Steifheit und eine freie Konfigurierung der Innenaufteilung. Dieses Konstruktionssystem bildet eine Einheit, die einfach zusammenzubauen und neu zu gestalten ist, wobei die Verdoppelung der Stärke der Seiten im Innenbereich vermieden wird.

El bastidor de aluminio extruido que constituye el armazón de soporte de MONOLITH permite una gran resistencia estructural y una libre configuración de las particiones interiores. Este sistema de construcción forma un conjunto muy fácil de montar y reconfigurar, evitando duplicar el espesor de los laterales en su interior.

SPIN 360 is a TV support designed and manufactured for perfect integration with the most sophisticated monitor designs. It completely hides wires within and the column can be turned 360 degrees, guaranteeing maximum functionality and clean design. Spin 360 is available in a version with a 6mm thick steel base, with a container for multimedia units opened or closed, in two distinct heights H=100 / 120 cm.

SPIN360 - design 2016

Supporto TV disegnato e progettato per una perfetta integrazione con i monitor dal design più sofisticato. Nascondere i cavi completamente al suo interno e orientare la colonna a 360 gradi, garantisce massima funzionalità e purezza di disegno. SPIN 360 è disponibile nella versione con base in acciaio spessore 6mm, con contenitore per unità multimediali aperto o chiuso, in due altezze distinte H=100 / 120 cm.

SPIN 360 est un support pour TV dessiné et conçu pour une intégration parfaite avec les écrans aux designs les plus sophistiqués. Pour un maximum de fonctionnalité et de pureté du dessin dissimuler les fils complètement à l'intérieur et orienter la colonne à 360°. SPIN 360 est disponible dans la version avec base en acier, épaisseur 6 mm, avec module de rangement pour unités multimédias ouvert ou fermé, disponible dans deux hauteurs distinctes H=100/120 cm.

SPIN 360 ist ein TV-Halter, der für eine perfekte Integration von hoch entwickelten Bildschirmen entworfen wurde. Die vollständige Unterbringung der Kabel im Halter und die Drehmöglichkeit der Säule um 360 Grad, bieten höchste Zweckmäßigkeit und ein klares Design. SPIN 360 ist in der Version mit einem Fuß aus 6 mm starkem Stahl, einer multimedialen, offenen oder geschlossenen Einheit, in zwei unterschiedlichen Höhen von 100 oder 120 cm erhältlich.

SPIN 360 es un soporte de TV diseñado y desarrollado para una integración perfecta con la pantalla de diseño más sofisticado. Ocultar los cables completamente en su interior y orientar la columna a 360 grados, garantiza la máxima durabilidad y la pureza del diseño. SPIN 360 está disponible en versión con base de acero de 6 mm de grosor, con compartimento para sistemas multimedia abierto o cerrado, en dos alturas diferentes H = 100/120 cm.

Drawing on our decades of experience in designing systems for multimedia units, we have encapsulated the best features of flexibility and design in POLE360. The system allows for free installation of TVs with 360° rotation capability, the cables are hidden inside the support and can be accessed from either the bottom or the top

POLE360 - design 2024

Dalla nostra decennale esperienza nella progettazione di sistemi per unità multimediali, abbiamo voluto riassumere il meglio delle caratteristiche di versatilità e design in POLE360. Il sistema consente una libera installazione delle TV con possibilità di rotazione a 360°, i cavi sono nascosti all'interno del supporto e possono avere accesso dalla parte inferiore o superiore.

Fort de notre expérience de plusieurs décennies dans la conception de systèmes pour unités multimédias, nous avons résumé le meilleur des caractéristiques de flexibilité et de design dans POLE360. Le système permet une installation libre des téléviseurs avec une rotation à 360°, les câbles sont cachés à l'intérieur du support et peuvent être accessibles par le bas ou par le haut.

Basierend auf unserer jahrzehntelangen Erfahrung in der Gestaltung von Systemen für Multimedia-Einheiten haben wir die besten Eigenschaften von Flexibilität und Design im POLE360 zusammengefasst. Das System ermöglicht eine freie Installation von Fernsehern mit 360°-Drehung, die Kabel sind im Inneren der Halterung verborgen und können von unten oder oben zugänglich sein.

Con nuestra experiencia de décadas en el diseño de sistemas para unidades multimedia, hemos resumido las mejores características de flexibilidad y diseño en POLE360. El sistema permite una instalación libre de televisores con capacidad de rotación de 360°, los cables están ocultos dentro del soporte y se puede acceder a ellos desde la parte inferior o superior.

Collection catalogue

We had the intention to design a TV support column that integrates at best with the essential design of the latest TV models. Although APOLLO consists of only a few elements that enhance its geometrical purity, it rotates 360°, the concealing of cables along with the possibility to add TV decoder and sound bar support accessories.

APOLLO - design 2018

Desideravamo disegnare un supporto che si integrasse al meglio con il design essenziale degli ultimi modelli Tv. APOLLO pur essendo composto da pochi elementi che ne evidenziano la purezza geometrica, consente la rotazione di 360°, l'occultamento dei cavi e la possibilità di aggiungere accessori porta decoder e sound bar.

Nous souhaitions dessiner un support qui s'intègre au mieux avec le design essentiel des derniers modèles de téléviseurs. APOLLO, même s'il est composé de peu d'éléments qui mettent en évidence sa pureté géométrique, permet la rotation de 360°, la dissimulation des câbles et la possibilité d'ajouter des accessoires comme le porte-décodeur et la barre audio.

Unser Anliegen bestand darin, einen Fernsehständer zu entwerfen, der optimal auf das essentielle Design der neuesten TV-Modelle abgestimmt ist. APOLLO setzt auf einen essentiellen Aufbau aus wenigen Elementen und besticht durch eine schlichte Optik. Er erlaubt eine Drehung des Geräts um 360 Grad, bietet unsichtbare Kabelverlegung und auf Wunsch zusätzliche Ablagen für Decoder und Soundbar als Zubehör.

Nuestro deseo era diseñar un soporte que se integrara de la mejor forma con el diseño esencial de los últimos modelos de televisores. APOLLO, que consta de pocos elementos que ponen de relieve su pureza geométrica, permite la rotación de 360°, ocultar los cables y la posibilidad de añadir accesorios porta codificador y barra de sonido.

TITANO allows the installation of monitors of a size from 55” to 85”. The cables are completely hidden by the freely and fully orientable stand. A pair of back covers hides and allows rapid access to the TV electrical outlets. It can be accessorized with a sound-bar or multimedia readers support that completely incorporates and conceals the cables.

TITANO - design 2022

TITANO permette l’installazione di monitor dai 55” agli 85”. I cavi sono completamente occultati all’interno della colonna liberamente orientabile a 360°. Una coppia di carter posteriori nasconde e dà accesso rapido alle prese della TV. È accessoriabile con un supporto per sound-bar o lettori multimediali che integra e cela completamente i cavi.

TITANO permet l’installation de télévisions allant de 55 à 85 pouces. Les câbles sont complètement dissimulés à l’intérieur de la colonne, laquelle peut pivoter librement sur 360°. Deux panneaux de protection arrière permettent de dissimuler et d’accéder rapidement aux prises TV. Des accessoires tels qu’un support pour barres de son ou lecteurs multimédias peuvent être ajoutés, avec incorporation et dissimulation complètes des câbles.

TITANO ermöglicht die Montage von Bildschirmen von 55” bis zu 85”. Die Kabel sind komplett in der um 360° frei drehbaren Säule versteckt. Zwei Gehäuse auf der Rückseite verstecken und ermöglichen den leichten Zugriff zu den TV-Steckdosen. Er kann mit einer Unterlage für Sound-Bar oder multimedialen Playern ausgestattet werden, die die Kabel integriert und komplett versteckt.

Los cables están completamente ocultos dentro de la columna ajustable de 360°. Un par de tapas traseras ocultan y dan acceso rápido a las tomas de televisión. Puede equiparse con un soporte para barras de sonido o reproductores multimedia que integra y oculta completamente los cables.

Designed for the installation of large monitors (from 55” to 85”), the back cover has a rapid fit system that hides and allows access to the TV plugs. The TV panel does not rotate around the support but the whole unit can be moved easily thanks to the Teflon supports. An accessory shelf can be used for sound-bars or multimedia readers.

URANO - design 2022

Pensato per l'installazione di monitor di grande formato dai 55" agli 85", Il carter posteriore ha un sistema di sganciamento rapido che permette di nascondere e accedere alle prese TV. Il pannello Tv non ruota rispetto al supporto, ma l'insieme può essere facilmente spostato grazie ai supporti in teflon. Un ripiano accessorio può essere utilizzato come supporto di sound-bar o lettori multimediali.

Conçu pour l'installation de télévisions grand format de 55 à 85 pouces, le panneau arrière dispose d'un système de décrochage rapide qui permet de dissimuler et d'accéder aux prises TV. Le panneau TV ne tourne pas par rapport au support, mais l'ensemble peut être facilement déplacé grâce aux supports en téflon. Une étagère pour accessoires peut être utilisée comme support pour les barres de son ou les lecteurs multimédias.

Gedacht für die Montage von großen Bildschirmen (von 55" bis 85"), hat das Gehäuse auf der Rückseite ein Schnellabhängsystem, wodurch die TV-Steckdosen versteckt werden und sie leicht erreicht werden können. Die TV-Platte dreht sich nicht unabhängig von der Unterlage, aber das Ganze kann dank der Teflon-Unterlagen leicht verstellt werden. Eine zusätzliche Ablage kann als Unterlage für Sound-Bar oder multimediale Player dienen.

Diseñada para la instalación de monitores de gran formato de 55" a 85", la cubierta trasera tiene un sistema de liberación rápida que permite ocultar y acceder a las tomas de TV. El panel del televisor no gira con respecto al soporte, pero el conjunto puede moverse fácilmente gracias a los soportes de teflón. Un estante accesorio puede utilizarse como soporte para barras de sonido o reproductores multimedia.

The telescopic pole and wall profile of SYSTEM MULTIMEDIA can be fitted with a universal monitor support bracket, shelves for multimedia units, and shelves for books, magazines, DVDs and CDs. The cables are housed in an external profile available in the same finish as the vertical upright.

SYSTEM MULTIMEDIA - design 2009

L’asta telescopica e il profilo a parete di SYSTEM MULTIMEDIA, sono prodotti accessoriabili con staffa supporto monitor universale, ripiani per unità multimediali, ripiani per libri, riviste, dvd, cd. I cavi sono raccolti in un profilo esterno disponibile nella medesima finitura del montante verticale.

Le mât télescopique et le profilé mural de SYSTEM MULTIMEDIA peuvent être équipés d’un support universel pour écran, de tablettes pour appareils multimédias et de tablettes pour livres, revues, DVD et CD. Les câbles sont regroupés dans un profilé extérieur disponible dans la même finition que le montant vertical.

Die Teleskopstange und das Wandprofil von SYSTEM MULTIMEDIA können mit einer universellen Monitorhalterung, Fachböden für Multimedia-Geräte sowie Ablagen für Bücher, Zeitschriften, DVDs und CDs ausgestattet werden. Die Kabel werden in einem externen Profil geführt, das in der gleichen Ausführung wie die vertikale Stütze erhältlich ist.

La barra telescópica y el perfil de pared de SYSTEM MULTIMEDIA pueden equiparse con un soporte universal para monitor, estantes para unidades multimedia y estantes para libros, revistas, DVD y CD. Los cables se alojan en un perfil exterior disponible en el mismo acabado que el montante vertical.

SLIDE
pg. 236

PERSONAL
pg. 260

SLIDE is based on the XY patent: the paired aluminium profiles, hanging rails and shelves can be cut to size. In addition, the clamp system supporting the shelves allows the module span to be adjusted at a later stage. Corner solutions can be created flexibly, without the constraint of predetermined modules.

SLIDE - design 2012

SLIDE deriva dal brevetto XY, le coppie di profili in alluminio le barre appenderia e i ripiani sono riducibili a misura, inoltre il sistema a pinza che regge i ripiani permette di poter cambiare la campata dei moduli in un secondo momento. Le soluzioni angolari si risolvono in modo versatile senza vincolo di moduli predeterminati.

SLIDE est issu du brevet XY : les paires de profilés en aluminium, les barres de penderie et les étagères peuvent être découpées sur mesure. De plus, le système à pince qui soutient les étagères permet de modifier ultérieurement la travée des modules. Les solutions d'angle peuvent être réalisées de manière polyvalente, sans contrainte de modules prédéterminés.

SLIDE basiert auf dem XY-Patent: Die Profilpaare aus Aluminium, Kleiderstangen und Fachböden können auf Maß gekürzt werden. Darüber hinaus ermöglicht das Klemmsystem, das die Fachböden trägt, die Feldbreite der Module auch nachträglich zu verändern. Ecklösungen lassen sich vielseitig und ohne die Einschränkung vorgegebener Module realisieren.

SLIDE se basa en la patente XY: los pares de perfiles de aluminio, las barras de colgar y los estantes pueden cortarse a medida. Además, el sistema de pinza que sostiene los estantes permite modificar el vano de los módulos en una fase posterior. Las soluciones de esquina pueden realizarse de forma versátil, sin la restricción de módulos predeterminados.

The patented extendo system, used as the load-bearing structure of the PERSONAL collection, consists of two extendable aluminium profiles, adjustable to different ceiling heights. By operating the concealed lever, the profiles lock at the desired height and are tensioned between floor and ceiling, without the use of tools or any prior fixing.

PERSONAL - design 2004

Il sistema brevettato extendo impiegato come ossatura portante della collezione PERSONAL è formato da due profili in alluminio estensibili, adattabili alle diverse altezze degli ambienti. Agendo sulla leva a scomparsa, i profili si bloccano all'altezza desiderata e si comprimono tra pavimento e soffitto, senza l'utilizzo di alcun utensile o prefissaggio.

Le système breveté extendo, utilisé comme ossature porteuse de la collection PERSONAL, se compose de deux profilés en aluminium extensibles, adaptables aux différentes hauteurs sous plafond. En actionnant le levier escamotable, les profilés se verrouillent à la hauteur souhaitée et se mettent en compression entre le sol et le plafond, sans aucun outil ni fixation préalable.

Das patentierte extendo-System, das als tragende Struktur der PERSONAL-Kollektion dient, besteht aus zwei ausziehbaren Aluminiumprofilen, die an unterschiedliche Raumhöhen angepasst werden können. Durch Betätigung des verdeckten Hebels werden die Profile in der gewünschten Höhe arretiert und zwischen Boden und Decke gespannt, ohne dass Werkzeuge oder eine vorherige Befestigung erforderlich sind.

El sistema patentado extendo, utilizado como estructura portante de la colección PERSONAL, está formado por dos perfiles de aluminio extensibles, adaptables a diferentes alturas de techo. Al accionar la palanca oculta, los perfiles se bloquean a la altura deseada y quedan comprimidos entre el suelo y el techo, sin necesidad de herramientas ni de fijación previa.
