Innovative furniture product concepts are brought to life by a design team that develops and outlines creative concepts in-house coherently with the stylistic language of all the Extendo collections.

I concetti innovativi di prodotto d'arredo prendono vita grazie ad un design team che in-house sviluppa e dettaglia i concepts creativi mantenendo coerenza nel linguaggio stilistico in tutte le collezioni extendo.

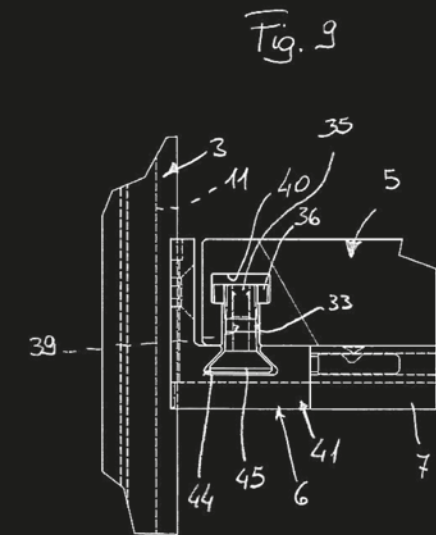

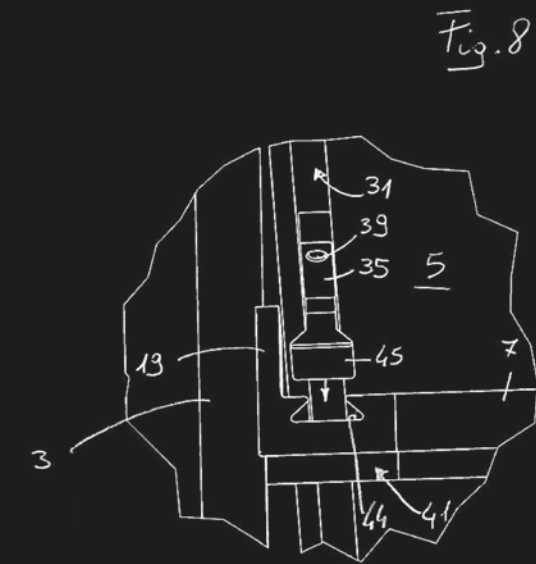

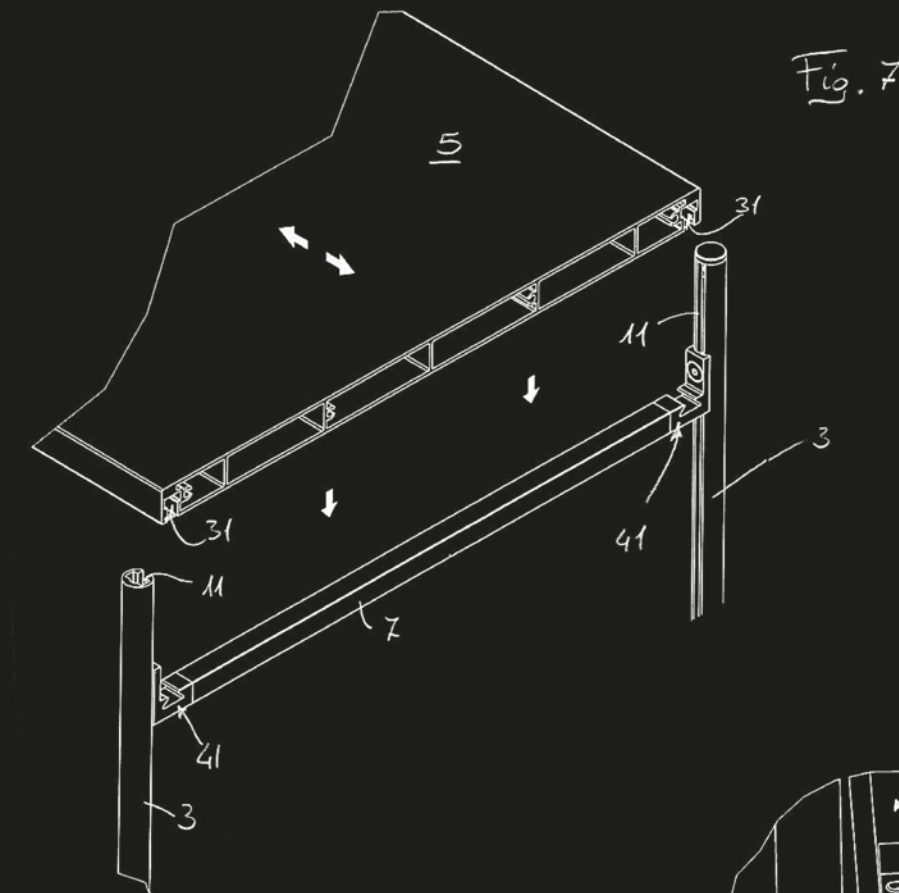

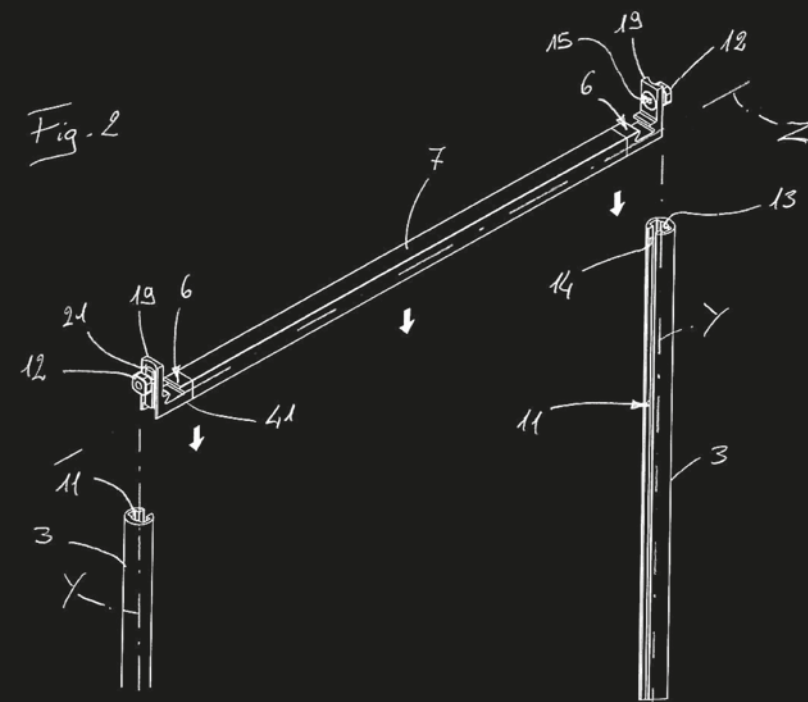

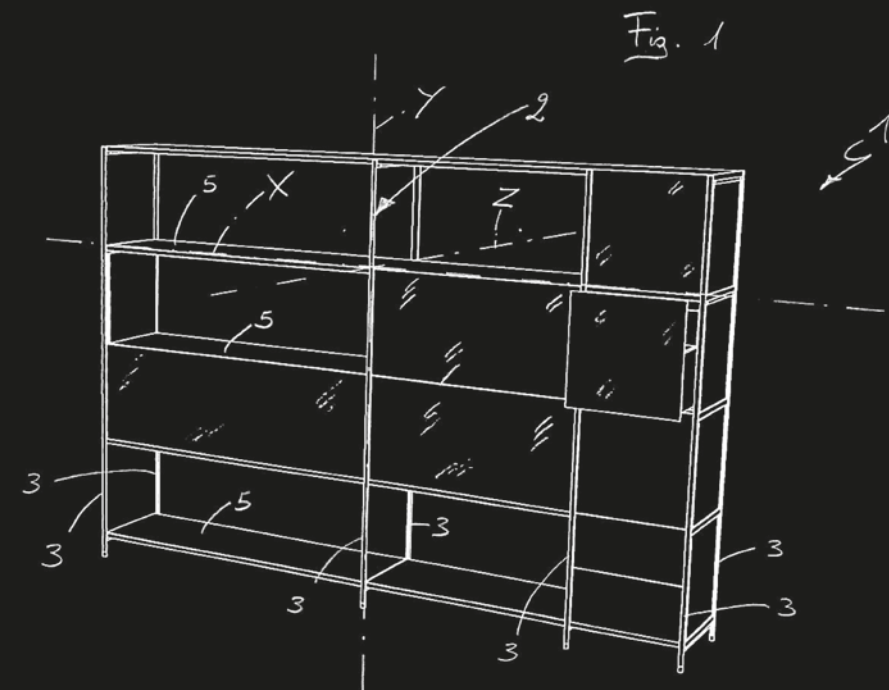

Les concepts innovants de produits d'ameublement prennent vie grâce à une équipe de conception qui développe des concepts créatifs en interne en maintenant la cohérence du langage stylistique de toutes les collections Extendo.

Die innovativen Konzepte für Einrichtungsprodukte entstehen dank einem Design-Team das in-house die kreativen Konzepte entwickelt und ausführlich beschreibt und dabei in der stilistischen Sprache in allen extendo-Kollektionen die Kohärenz beibehält.

Los innovadores conceptos de productos de mobiliario cobran vida gracias a un equipo de diseño interno que desarrolla y detalla los conceptos creativos manteniendo un lenguaje estilístico coherente en todas las colecciones de extendo.

The passion for materials, mechanical design and the search for new functions applied to furnishing systems, give life to the extendo patents, invention and design patents.

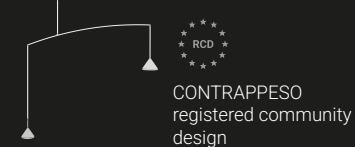

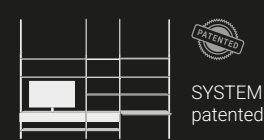

La passione per i materiali, la progettazione meccanica e la ricerca di nuove funzionalità applicate ai sistemi d'arredo, danno vita ai brevetti extendo, brevetti di invenzione e di design.

La passion pour les matériaux la conception mécanique et la recherche de nouvelles fonctionnalités appliquées aux systèmes d'ameublement donnent vie aux brevets Extendo des brevets d'invention et de design.

Die Leidenschaft für die Materialien das maschinelle Entwerfen und die Suche nach neuen Zweckmäßigkeiten für die Einrichtungssysteme rufen die Patente extendo ins Leben Patente der Erfindung und des Designs.

La pasión por los materiales el diseño mecánico y la búsqueda de nuevas funcionalidades aplicadas a los sistemas de mobiliario dan lugar a patentes Extendo de invención y de diseño.

When we conceptualize a new product, we look for the “perfect balance” between the materials it is made from, the design of the forms and everyday practicality.

Quando immaginiamo un nuovo prodotto, ricerchiamo “l'equilibrio perfetto” tra i materiali che lo compongono, il design delle forme e la funzionalità nel quotidiano.

Lorsque nous imaginons un nouveau produit nous recherchons « l'équilibre parfait » entre les matériaux qui le composent ses formes et sa fonction au quotidien.

Wenn wir uns ein neues Produkt vorstellen suchen wir „das perfekte Gleichgewicht“ zwischen den Materialien aus denen es besteht dem Design der Formen und der Zweckmäßigkeit im Alltag.

Cuando imaginamos un nuevo producto buscamos el “equilibrio perfecto” entre los materiales que lo componen el diseño de sus formas y su funcionalidad cotidiana.

The project team develops and fine tunes the new product concept. The specific know-how of the design and industrialization teams is pooled during the 3D design stage.

Il team di progetto sviluppa ed affina il nuovo concept di prodotto. La fase di progettazione 3D prevede la condivisione delle specifiche competenze dei team di design ed industrializzazione.

L'équipe de projet développe et affine le nouveau concept de produit. La phase de conception 3D prévoit un partage des compétences spécifiques des équipes de conception et d'industrialisation.

Das Projektteam entwickelt und verfeinert das neue Produktkonzept. Die 3D-Entwurfsphase sieht das Teilen von spezifischen Kompetenzen der Design- und des Industrialisierungsteams vor.

El equipo del proyecto desarrolla y perfecciona el nuevo concepto del producto. La fase de diseño en 3D implica la puesta en común de las competencias específicas del equipo de diseño e industrialización.

Extendo sources raw materials that meet the highest technical and quality standards. Using these materials we make thousands of wood, steel, aluminium and glass components for semi-finished products which are then stored in our warehouses.

Extendo acquista le materie prime che soddisfano i migliori standard tecnici e qualitativi direttamente alla fonte. Da esse vengono prodotti migliaia di componenti in legno, acciaio, alluminio e vetro sottoforma di semilavorati stoccati presso i nostri magazzini.

Extendo achète les matières premières répondant aux meilleurs standards techniques et qualitatifs directement à la source. Celles-ci permettent la production de milliers de composants en bois acier aluminium et verre sous forme de produits semi-finis stockés dans nos entrepôts.

Extendo kauft die Rohstoffe die den besten technischen und qualitativen Standards entsprechen direkt an der Quelle. Aus diesen werden tausende Komponenten aus Holz Stahl Aluminium und Glas hergestellt in Form von Halbfertigprodukten die bei uns gelagert werden.

Extendo adquiere materias primas que cumplen las normas técnicas y de calidad más exigentes directamente de la fuente. A partir de ellas se fabrican miles de componentes de madera acero aluminio y vidrio en forma de productos semiacabados almacenados en nuestros almacenes.

In-house production capitalizes on the experience and cooperation of partner artisans whose workshops are located within a short radius of our manufacturing plant. In this way know-how is shared and the steps between the production chain are shortened.

La produzione interna integra l'esperienza e la cooperazione di artigiani partner i cui laboratori sono situati a breve raggio dalla nostra sede produttiva. Questo consente una condivisione del know-how ed una rapidità tra i diversi step di filiera.

La production interne intègre l'expérience et la coopération d'artisans partenaires dont les ateliers sont situés à courte distance de notre site de production. Cela permet un partage de savoir-faire et une rapidité entre les différentes étapes de la chaîne d'approvisionnement.

Die interne Produktion integriert die Erfahrung und die Zusammenarbeit mit Partnerhandwerkern deren Werkstätten im nahen Umkreis von unserer Produktionsstätte liegen. Das ermöglicht das Teilen des Knowhows und Schnelligkeit zwischen den verschiedenen Stufen der Produktionskette.

La producción interna incorpora la experiencia y la cooperación de socios artesanos cuyos talleres están situados en un radio de corto alcance respecto de nuestro centro de producción lo que permite compartir conocimientos técnicos y rapidez entre los distintos pasos de la cadena de producción.

The choice of the raw material guides the creative process from the outset. The Extendo project team pays great attention to the search for the materials to use for each product.

In this project stage the client choose the materials finishes and dimensions of the product they want to buy. During the production process this information leads to the personalization of the finished product.

In fase di progetto il cliente sceglie i materiali le finiture e le dimensioni del prodotto che intende acquistare. Tali informazioni nei diversi step produttivi daranno vita alla personalizzazione del prodotto finale.

Lors de la phase de conception le client choisit les matériaux les finitions et les dimensions du produit qu'il envisage d'acheter. Ces informations durant les différentes étapes de production permettront de personnaliser le produit final.

In der Entwurfsphase wählt der Kunde die Materialien die Beschichtungen und die Maße der Produkte die er kaufen möchte. Diese Informationen in den verschiedenen Produktionsphasen führen zur Individualisierung des Endprodukts.

En la fase de diseño el cliente elige los materiales los acabados y las dimensiones del producto que desea adquirir. Esta información en las distintas fases de producción dará lugar a la personalización del producto final.

What makes Extendo products unique

Passion for the study of materials, forms and functions, is the heart of the Extendo products' design and invention patents.

La passione per la ricerca sui materiali, le forme e le funzioni, è la fonte dei brevetti di design ed invenzione dei prodotti extendo.

La passion pour la recherche sur les matériaux les formes et les fonctions est à l'origine des brevets de conception et d'invention des produits Extendo.

Die Leidenschaft für die Forschung über die Materialien die Formen und die Zwecke ist die Quelle der Patente des Designs und der Erfindung der Produkte von extendo.

La pasión por la investigación de materiales formas y funciones es el origen de las patentes de diseño e invención de los productos Extendo.

Materials and technologies

The project team uses state-of-the-art materials and transformation technologies to create the new collections.

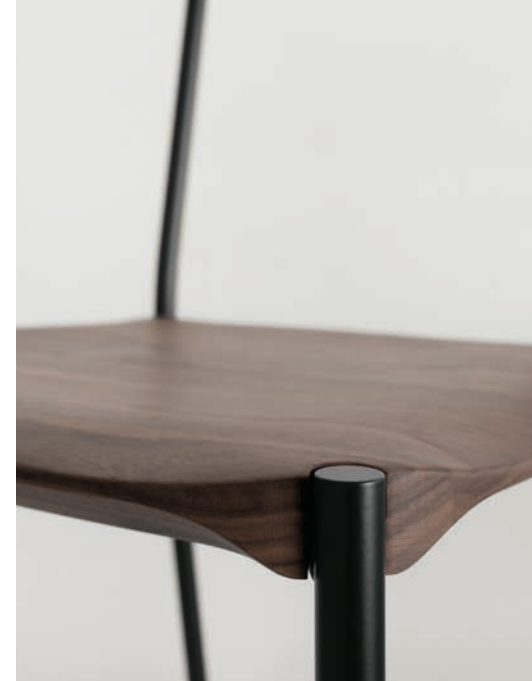

Il project team impiega i materiali e le tecnologie di trasformazione più innovativi per dare vita alle nuove collezioni.

L'équipe du projet utilise les matériaux et les technologies de transformation les plus innovants pour créer les nouvelles collections.

Das Projekt-Team verwendet die innovativsten Materialien und Verarbeitungstechnologien um die neuen Kollektionen zu realisieren.

El equipo del proyecto utiliza los materiales y tecnologías de procesamiento más innovadores para crear nuevas colecciones.

Design and invention patents

Design as a distinctive feature

The design of Extendo's products is a distinctive feature that is common to all our collections.

Il design dei prodotti extendo è un segno distintivo che accomuna tutte le nostre collezioni.

Le design des produits Extendo est une caractéristique qui unit toutes nos collections.

Das Design der Produkte von extendo ist ein Markenzeichen das alle unsere Kollektionen gemeinsam haben.

El diseño de los productos Extendo es un sello distintivo de todas nuestras colecciones.

Being able to choose the size materials and finishes of each product creates harmony between furnishings and interior design.

La possibilità di poter scegliere le dimensioni i materiali e le finiture di ogni prodotto crea armonia tra gli arredi e l'architettura d'interni.

La possibilité de choisir les dimensions les matériaux et les finitions de chaque produit permet d'harmoniser l'ameublement et l'architecture intérieure.

Die Möglichkeit die Maße die Materialien und die Beschichtungen wählen zu können schafft Harmonie zwischen der Einrichtung und der Innenarchitektur.

La posibilidad de poder elegir el tamaño el material y el acabado de cada producto crea una armonía entre el mobiliario y la arquitectura interior.

Quality and competitiveness

Our warehouses for components and raw materials purchased at the source of the production chains guarantee the quality and competitiveness of the products in the collections.

I vasti magazzini di componenti e le materie prime acquistate alla fonte delle filiere produttive garantiscono qualità e competitività ai prodotti delle collezioni.

Les vastes entrepôts de composants et de matières premières achetés à la source des chaînes de production garantissent qualité et compétitivité aux articles composant les collections.

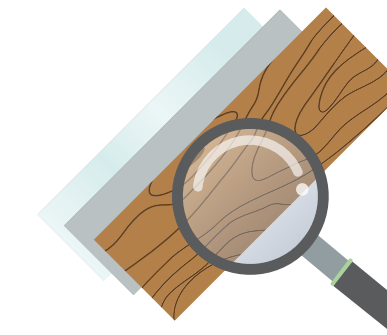

Die großen Lager mit Komponenten und Rohstoffen die an der Quelle der Produktionsketten gekauft werden gewährleisten den Produkten der Kollektionen Qualität und Wettbewerbsfähigkeit.

Los amplios stocks de componentes y materias primas adquiridos en el origen de las cadenas de producción garantizan la calidad y competitividad de los productos de las colecciones.

Extendo green's path

Whether aluminium steel wood or glass the choice of raw material is a fundamental part of the creative process from the outset.

Alluminio acciaio legno vetro la scelta delle materie prime è parte integrante del processo creativo sin dalla sua genesi.

Aluminium acier bois verre le choix des matières premières fait partie intégrante de notre processus de création dès sa genèse.

Aluminium stahl holz glas die wahl der rohstoffe ist wesentlicher bestandteil des kreativen prozesses schon von anfang an.

Aluminio acero madera vidrio la elección de las materias primas forma parte del proceso creativo desde su génesis.

For our products we use raw materials partially or completely from re-use processes and which are in turn recyclable.

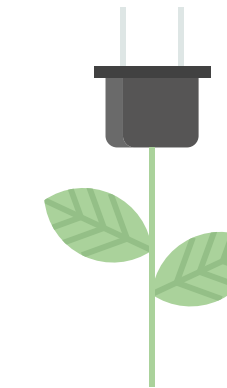

Per realizzare i nostri prodotti utilizziamo materie prime che derivano in parte o totalmente da un processo di riutilizzo e sono a loro volta riciclabili.

Pour fabriquer nos produits nous utilisons des matières premières qui proviennent en partie ou totalement d'un processus de réutilisation et sont à leur tour recyclables.

Zur Realisierung unserer Produkte verwenden wir Rohstoffe die zum Teil oder ganz aus einem Wiederverwendungsprozess stammen und sind ihrerseits recycelbar.

Para fabricar nuestros productos utilizamos materias primas parcial o totalmente reutilizables y reciclables.

The entire production chain uses energy from renewable sources either self-produced or procured from certified sources.

L'intera filiera produttiva impiega energia derivante da fonti rinnovabili, auto-prodotta o acquistata da fonti certificate.

L'ensemble de la chaîne de production utilise de l'énergie provenant de sources renouvelables autoproduite ou achetée auprès de sources certifiées.

Die gesamte Produktionskette nutzt Energie aus erneuerbaren Energiequelle selbst erzeugt oder von zertifizierter Quelle gekauft.

Toda la cadena de producción utiliza energía procedente de fuentes renovables de producción propia o comprada a fuentes certificadas.

We reduce the emissions from the transport of raw materials and semi-finished products by producing them in-house or by using manufacturing partners located within a radius of 15 km.

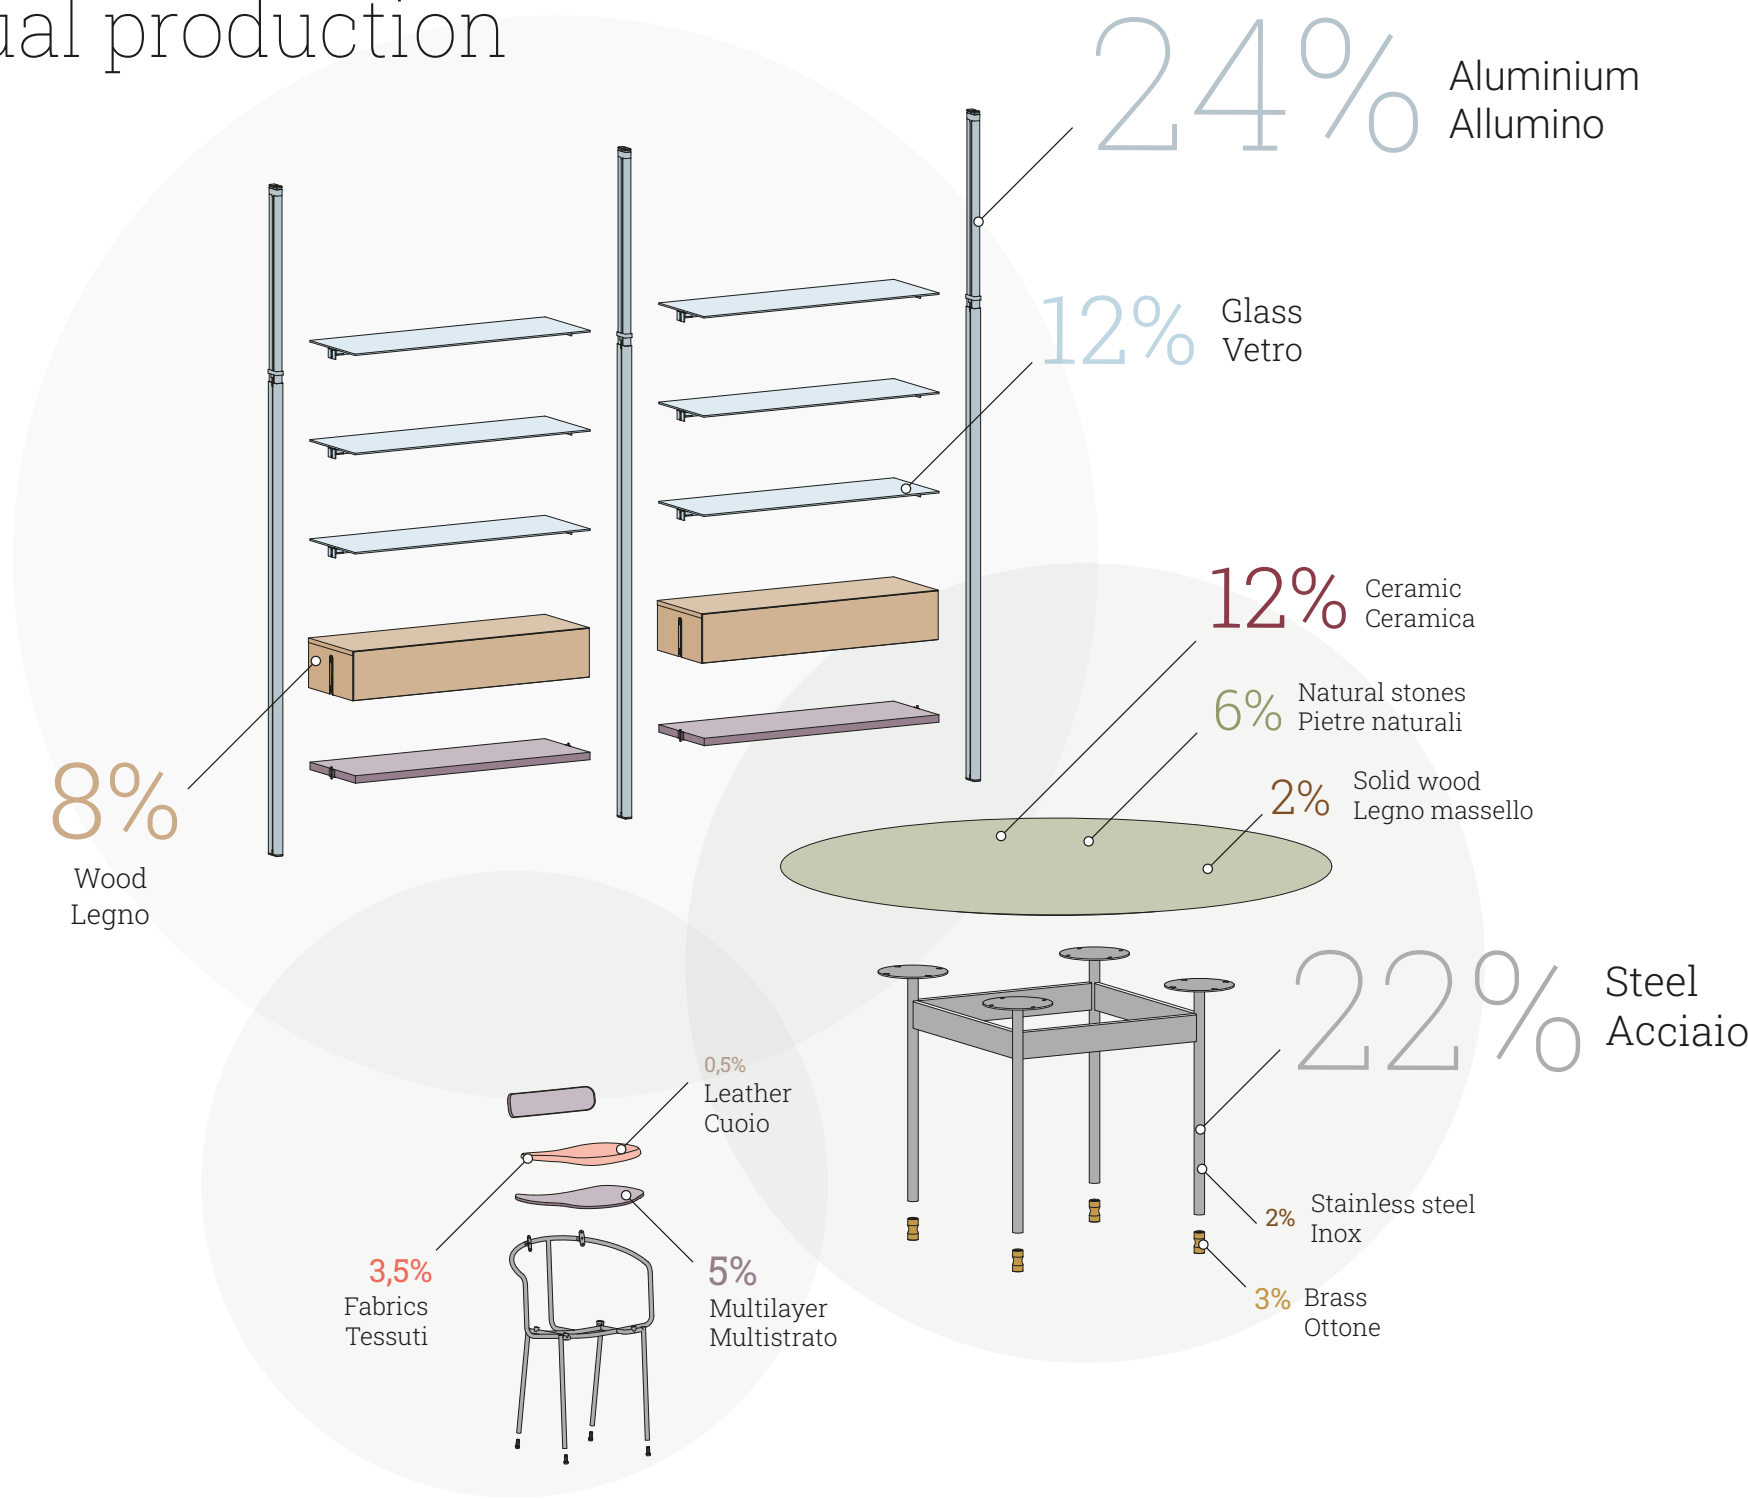

Riduciamo le emissioni derivanti dai trasporti di materie prime e semilavorati producendo il 100% in extendo e con partners produttivi nel raggio di 15km.

Nous réduisons les émissions provenant du transport des matières premières et des produits semi-finis en concentrant l'intégralité de la production dans les locaux d'Extendo et en collaboration avec des partenaires de production situés dans un rayon de 15 km.

Wir reduzieren die Emissionen für den Transport der Rohstoffe und der Halbfertigprodukte da wir alles bei extendo und mit Produktionspartnern im Umkreis von 15 km herstellen.

Reducimos las emisiones del transporte de materias primas y productos semiacabados produciendo el 100% dentro de la empresa y con socios de producción en un radio de 15 km.

Materials mix in the annual production

Green materials

The recycled raw materials take on a new life as furnishing components, designed to last over time.

Le materie prime riciclate prendono nuova vita sotto forma di componenti d'arredo progettati per durare nel tempo.

Les matières premières recyclées prennent une nouvelle vie sous la forme d'éléments de mobilier conçus pour durer dans le temps.

Die recycelten Rohstoffe erhalten als Einrichtungskomponenten neues Leben und sie sind entwickelt um eine lange Lebensdauer zu haben.

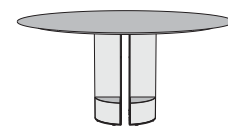

Las materias primas recicladas cobran nueva vida en forma de componentes de mobiliario diseñados para durar.

T13 is characterized by the compact size of the central base with visible counterweights. This construction system makes the table very usable and stable even with larger tops. An extremely customizable table, you can choose the finishes of the top, steel base, and ballast sectors independently.

T13 - design 2024

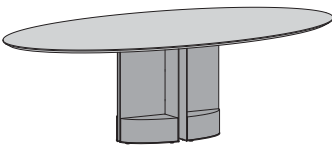

T13 si caratterizza per le contenute dimensioni della base centrale con contrappesi a vista. Tale sistema costruttivo rende il tavolo molto fruibile e stabile anche con le dimensioni dei top più grandi. Un tavolo estremamente personalizzabile in cui si possono scegliere indistintamente le finiture di top, base in acciaio e dei settori di zavorra.

Le T13 se caractérise par les dimensions réduites de la base centrale avec des contrepoids visibles. Ce système de construction rend la table très utilisable et stable même avec des plateaux plus grands. Une table extrêmement personnalisable, vous pouvez choisir indépendamment les finitions du plateau, de la base en acier et des secteurs de lest.

Der T13 zeichnet sich durch die kompakte Größe der zentralen Basis mit sichtbaren Gegengewichten aus. Dieses Konstruktionssystem macht den Tisch sehr benutzerfreundlich und stabil, auch bei größeren Tischplatten. Ein extrem anpassbarer Tisch, bei dem die Oberflächen von Platte, Stahlbasis und Ballastsektoren unabhängig voneinander gewählt werden können.

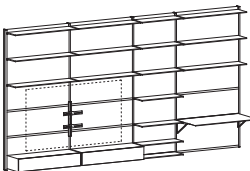

El T13 se caracteriza por el tamaño contenido de la base central con contrapesos visibles. Este sistema de construcción hace que la mesa sea muy utilizable y estable incluso con tapas más grandes. Una mesa extremadamente personalizable, se pueden elegir indistintamente los acabados de la tapa, la base de acero y los sectores de lastre.

T12 originates from the observation of bridge and truss structures. It adopts a structural system that makes it possible to produce tops up to 400 cm long in a single piece. The adjustable tie-rod system gives the table excellent stability against lateral stress and ensures the perfect flatness of the top.

T12 - design 2022

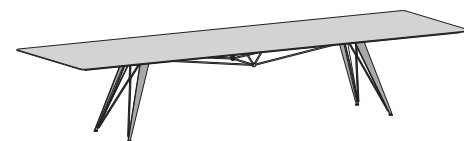

T12 nasce dall'osservazione delle strutture dei ponti e delle capriate. Adotta uno schema strutturale che ha reso possibile realizzare top fino a 400 cm di lunghezza in un unico pezzo. Il sistema a tiranti regolabili conferisce al tavolo grande stabilità alle sollecitazioni laterali e garantisce la perfetta planarità del top.

T12 naît de l'observation des structures de ponts et de charpentes. Il adopte un système structurel qui permet de réaliser des plateaux jusqu'à 400 cm de longueur en une seule pièce. Le système de tirants réglables confère à la table une grande stabilité face aux sollicitations latérales et garantit la parfaite planéité du plateau.

T12 entsteht aus der Beobachtung von Brücken- und Fachwerkstrukturen. Es übernimmt ein strukturelles System, das die Herstellung von Tischplatten mit einer Länge von bis zu 400 cm aus einem einzigen Stück ermöglicht. Das System aus verstellbaren Zugstangen verleiht dem Tisch eine hohe Stabilität gegenüber seitlichen Belastungen und gewährleistet die perfekte Ebenheit der Tischplatte.

T12 nace de la observación de las estructuras de puentes y cerchas. Adopta un sistema estructural que permite fabricar sobres de hasta 400 cm de longitud en una sola pieza. El sistema de tirantes regulables confiere a la mesa una gran estabilidad frente a las sollicitaciones laterales y garantiza la perfecta planitud del sobre.

T11 features a truss steel frame with elements reduced to a minimum section, just 8 or 16 mm in diameter, which, once bent and welded, support tables up to 300 cm long. T11 is available in fixed and extendable versions. The fixed version can be configured with 8 top geometries and 8 categories of finishes, while the bases are available in 12 powder-coated colours.

T11 - design 2022

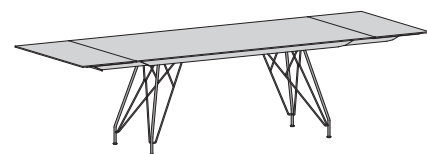

T11 adotta un telaio in acciaio a traliccio con elementi di sezione ridotta al minimo, di soli 8 o 16 mm di diametro, che, una volta piegati e saldati, supportano tavoli fino a 300 cm. T11 è disponibile in versione fissa e allungabile. La versione fissa è configurabile con 8 geometrie di top e 8 categorie di finiture, mentre per i basamenti sono disponibili 12 colorazioni verniciate a polveri.

T11 adopte une structure en acier en treillis composée d'éléments à section réduite au minimum, de seulement 8 ou 16 mm de diamètre, qui, une fois cintrés et soudés, supportent des tables jusqu'à 300 cm de longueur. T11 est disponible en version fixe et extensible. La version fixe peut être configurée avec 8 géométries de plateau et 8 catégories de finitions, tandis que les piètements sont disponibles en 12 coloris thermolaqués.

T11 verfügt über ein Stahlfachwerkgestell mit auf ein Minimum reduzierten Elementquerschnitten von nur 8 oder 16 mm Durchmesser, die nach dem Biegen und Schweißen Tische mit einer Länge von bis zu 300 cm tragen. T11 ist in fester und ausziehbarer Version erhältlich. Die feste Version kann mit 8 Tischplattengeometrien und 8 Finish-Kategorien konfiguriert werden, während für die Untergestelle 12 pulverbeschichtete Farben verfügbar sind.

T11 adopta una estructura de acero en celosía con elementos de sección reducida al mínimo, de solo 8 o 16 mm de diámetro, que, una vez curvados y soldados, soportan mesas de hasta 300 cm de longitud. T11 está disponible en versión fija y extensible. La versión fija puede configurarse con 8 geometrías de sobre y 8 categorías de acabados, mientras que para las bases hay disponibles 12 colores con acabado de pintura en polvo.

The research of Jean Prouvé with the 1950/54 Trapèze table has inspired the design of the T10 table. The brass or burnished brass ends protect the base against accidental impacts and guarantee the stability of the table. T10, in the fixed version, can have 4 geometries of top available in 8 types of finish, while for the bases there is a choice of 12 powder coated colours.

T10 - design 2022

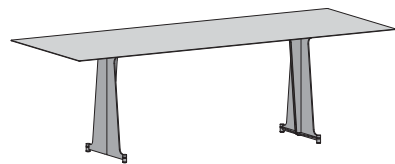

La ricerca di Jean Prouvé con il tavolo trapèze del 1950/54 ha ispirato il design del tavolo T10. I terminali in ottone o ottone brunito proteggono il basamento da urti accidentali e garantiscono stabilità al tavolo. T10, in versione fissa, è configurabile con 4 geometrie di top disponibili in 8 categorie di finiture, mentre per i basamenti la scelta è tra 12 colorazioni a polveri.

Les recherches de Jean Prouvé avec la table Trapèze de 1950/54 ont inspiré le design de la table T10. Les extrémités en laiton ou en laiton bruni protègent le socle contre les chocs accidentels et garantissent la stabilité de la table. T10, dans sa version fixe, peut être configurée en choisissant parmi 4 formes de plateau, disponibles en 8 catégories de finitions, tandis que 12 couleurs de poudre sont disponibles pour les socles.

Die Studien von Jean Prouvé mit dem Tisch Trapèze von 1950/54 haben das Design des Tisches T10 inspiriert. Die Endteile aus Messing und brüniertem Messing schützen das Untergestell vor Stößen und verleihen dem Tisch Stabilität. T10, in fester Version, kann mit 4 Tischplattenformen, verfügbar in 8 Beschichtungskategorien, konfiguriert werden, während für das Untergestell zwischen 12 Pulverfärbungen gewählt werden kann.

Las investigaciones de Jean Prouvé con la mesa Trapèze de 1950/54 inspiraron el diseño de la mesa T10. Los remates de latón o latón bruñido protegen la base de golpes accidentales y proporcionan estabilidad a la mesa. La versión fija de T10 puede configurarse con 4 geometrías de tablero disponibles en 8 categorías de acabados, mientras que la base está disponible en 12 colores con recubrimiento pulverizado.

Laser cutting on 8 mm thick steel and press-bending allow minimization of the overall size of the support, increasing the space for the chairs and, consequently, the overall use of the table. T9 is available in the fixed and extending version. The fixed version can have 8 geometries of top in 8 types of finish, while for the bases there is a choice of 12 powder coated colours.

design

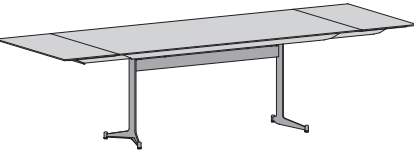

Il taglio laser su acciaio di spessore 8mm e la presso-piegatura consentono di ridurre al minimo l'ingombro del supporto aumentando lo spazio utile alle sedie e di conseguenza la fruibilità complessiva del tavolo. T9 è disponibile in versione fissa e allungabile. La versione fissa è configurabile con 8 geometrie di top disponibili in 8 categorie di finiture, mentre per i basamenti la scelta è tra 12 colorazioni a polveri.

La découpe au laser sur acier de 8 mm d'épaisseur et le pliage à la presse permettent de réduire les dimensions du support au minimum, augmentant ainsi l'espace utile aux assises pour utiliser pleinement la table. T9 est disponible en version fixe et extensible. La version fixe peut être configurée en choisissant parmi 8 formes de plateau, disponibles en 8 catégories de finitions, tandis que 12 couleurs de poudre sont disponibles pour les socles.

Das Laserschneiden auf 8 mm dickem Stahl und das Faltpressen ermöglichen es, die Größe der Stütze auf das Minimum zu reduzieren und so den brauchbaren Raum für die Stühle zu vergrößern und infolgedessen die Verwendbarkeit des Tisches zu optimieren. T9 ist in fester und ausdehnbarer Version verfügbar. Die feste Version kann mit 8 Tischplattenformen, verfügbar in 8 Beschichtungskategorien, konfiguriert werden, während für den Sockel zwischen 12 Pulverfärbungen gewählt werden kann.

El corte láser en acero de 8 mm de grosor y el plegado a presión permiten reducir al mínimo las dimensiones del soporte, lo que aumenta el espacio disponible para las sillas y, en consecuencia, la utilidad general de la mesa. La T9 está disponible en versión fija y extensible. La versión fija puede configurarse con 8 geometrías de tablero disponibles en 8 categorías de acabados, mientras que para las bases se puede elegir entre 12 colores con recubrimiento pulverizado.

The structure of the T7 table derives from the use of three-dimensional tube-bending technology. The 30 mm section tube, bent and welded to reinforcing flanges, makes it possible to support tables from 160 to 300 cm in length. The system also accommodates 5 top geometries and allows for custom size reduction.

T7 - design 2018

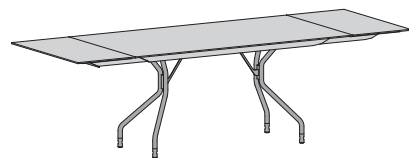

La struttura del tavolo T7 deriva dall'impiego della tecnologia di curvatura tridimensionale dei tubi. Il tubo di sezione 30 mm, curvato e saldato a flange di rinforzo, consente di supportare tavoli da 160 a 300 cm di lunghezza. Il sistema accoglie inoltre 5 geometrie di top e rende possibile anche la riduzione a misura.

La structure de la table T7 est issue de l'utilisation de la technologie de cintrage tridimensionnel des tubes. Le tube de section 30 mm, cintré et soudé à des brides de renfort, permet de supporter des tables de 160 à 300 cm de longueur. Le système accueille également 5 géométries de plateau et permet aussi la réduction sur mesure.

Die Struktur des Tisches T7 entsteht durch den Einsatz dreidimensionaler Rohrbiegetechnologie. Das Rohr mit einem Querschnitt von 30 mm, gebogen und mit Verstärkungsflanschen verschweißt, ermöglicht die Aufnahme von Tischen mit einer Länge von 160 bis 300 cm. Das System ist zudem für 5 Tischplattengeometrien geeignet und ermöglicht auch eine Maßreduzierung.

La estructura de la mesa T7 deriva del uso de la tecnología de curvado tridimensional de tubos. El tubo de sección 30 mm, curvado y soldado a bridas de refuerzo, permite soportar mesas de 160 a 300 cm de longitud. El sistema admite además 5 geometrías de sobre y permite también la reducción a medida.

HAMMER is designed without compromise for outdoor use, yet it is also available in solid walnut and oak for indoor settings. In the outdoor version, the top and seats are made of iroko treated with natural oil; the frame is available in corten steel or powder-coated steel, while the connection elements are made of stainless steel and brass.

HAMMER - design 2016

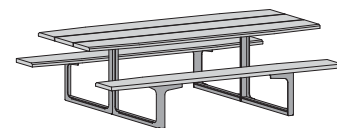

Hammer è progettato senza compromessi per l'utilizzo outdoor, ma è disponibile anche in massello di noce e rovere per l'inserimento in ambienti indoor. Nella versione outdoor, il top e le sedute sono realizzati in iroko trattato con olio naturale; il telaio è disponibile in acciaio corten o in acciaio verniciato a polveri, mentre gli elementi di connessione sono in acciaio inox e ottone.

Hammer est conçu sans compromis pour une utilisation outdoor, tout en étant également disponible en noyer massif et en chêne massif pour les environnements indoor. Dans la version outdoor, le plateau et les assises sont réalisés en iroko traité à l'huile naturelle ; la structure est disponible en acier corten ou en acier thermolaqué, tandis que les éléments de connexion sont en acier inoxydable et en laiton.

Hammer ist kompromisslos für den Outdoor-Einsatz konzipiert, ist jedoch auch in massivem Nussbaum und Eiche für den Einsatz im Innenbereich erhältlich. In der Outdoor-Version bestehen Tischplatte und Sitzflächen aus mit Naturöl behandeltem Iroko; das Gestell ist in Cortenstahl oder pulverbeschichtetem Stahl erhältlich, während die Verbindungselemente aus Edelstahl und Messing gefertigt sind.

Hammer está diseñado sin concesiones para el uso outdoor, aunque también está disponible en nogal macizo y roble macizo para ambientes indoor. En la versión outdoor, el sobre y los asientos están realizados en iroko tratado con aceite natural; la estructura está disponible en acero corten o acero pintado en polvo, mientras que los elementos de conexión son de acero inoxidable y latón.

IPE is a collection designed to create large-scale tables. The steel IPE section, used to support the tops, gives the structure great rigidity and allows the power cables of multimedia units to be concealed, running from the top to the lower part of the support. The tops can be joined together to create a table system with custom project dimensions.

IPE - design 2018

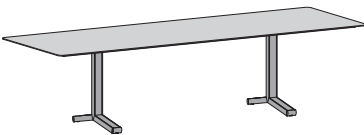

IPE è una collezione progettata per realizzare tavoli di grandi dimensioni. La sezione IPE in acciaio, utilizzata come supporto dei top, conferisce grande rigidità alla struttura e consente di nascondere i cavi di alimentazione delle unità multimediali, dal top fino alla parte inferiore del supporto. I top possono essere accostati per dare vita a un sistema di tavoli con dimensioni a progetto.

IPE est une collection conçue pour réaliser des tables de grandes dimensions. La section IPE en acier, utilisée comme support des plateaux, confère une grande rigidité à la structure et permet de dissimuler les câbles d'alimentation des unités multimédias, du plateau jusqu'à la partie inférieure du support. Les plateaux peuvent être juxtaposés afin de créer un système de tables aux dimensions sur projet.

IPE ist eine Kollektion, die für die Realisierung großformatiger Tische entwickelt wurde. Das als Träger der Tischplatten eingesetzte IPE-Stahlprofil verleiht der Struktur hohe Steifigkeit und ermöglicht es, die Stromkabel von Multimedia-Einheiten von der Tischplatte bis zum unteren Bereich des Trägers zu verbergen. Die Tischplatten können aneinandergereiht werden, um ein Tischsystem mit projektbezogenen Abmessungen zu schaffen.

IPE es una colección diseñada para realizar mesas de grandes dimensiones. La sección IPE de acero, utilizada como soporte de los sobres, confiere gran rigidez a la estructura y permite ocultar los cables de alimentación de las unidades multimedia, desde el sobre hasta la parte inferior del soporte. Los sobres pueden yuxtaponerse para crear un sistema de mesas con dimensiones a proyecto.

ST35 softens the rigour of the rectangular form: the slight rounding of the top corners creates a geometric connection between the elements and gives the table harmony and formal compactness. ST35 is available in fixed and extendable versions. For the fixed version, 6 categories of top finishes are available, while the bases come in a choice of 12 powder-coated colours.

ST35 - design 2022

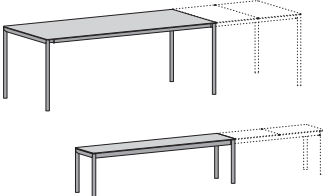

ST35 interrompe il rigore della forma rettangolare: la lieve raggiatura degli angoli del top crea un raccordo geometrico tra gli elementi e conferisce al tavolo armonia e compattezza formale. ST35 è disponibile in versione fissa e allungabile. Per la versione fissa sono disponibili 6 categorie di finiture top, mentre per i basamenti la scelta comprende 12 colorazioni verniciate a polveri.

ST35 rompt la rigueur de la forme rectangulaire : le léger arrondi des angles du plateau crée un raccord géométrique entre les éléments et confère à la table harmonie et compacité formelle. ST35 est disponible en version fixe et extensible. Pour la version fixe, 6 catégories de finitions de plateau sont disponibles, tandis que les piètements sont proposés en 12 coloris thermolaqués.

ST35 durchbricht die Strenge der rechteckigen Form: Die leichte Rundung der Tischplattenecken schafft eine geometrische Verbindung zwischen den Elementen und verleiht dem Tisch Harmonie und formale Kompaktheit. ST35 ist in fester und ausziehbarer Version erhältlich. Für die feste Version stehen 6 Kategorien von Tischplattenoberflächen zur Verfügung, während die Untergestelle in 12 pulverbeschichteten Farben erhältlich sind.

ST35 rompe el rigor de la forma rectangular: el ligero redondeo de las esquinas del sobre crea una conexión geométrica entre los elementos y confiere a la mesa armonía y compacidad formal. ST35 está disponible en versión fija y extensible. Para la versión fija hay disponibles 6 categorías de acabados para el sobre, mientras que las bases se ofrecen en 12 colores con pintura en polvo.

Constructive simplicity and the essential nature of the materials give shape to the SINTESI table. The steel frame allows for reduced sections and ensures high performance in the extendable version up to 300 cm. The top is available in 6 categories of finishes, while the bases come in a choice of 12 powder-coated colours.

SINTESI - design 2016

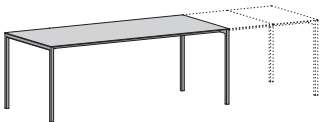

Semplicità costruttiva ed essenzialità dei materiali danno vita al tavolo SINTESI. Il telaio in acciaio consente sezioni ribassate e garantisce elevate prestazioni nella versione allungabile fino a 300 cm. Il top è disponibile in 6 categorie di finiture, mentre per i basamenti la scelta comprende 12 colorazioni verniciate a polveri.

Simplicité constructive et essentialité des matériaux donnent naissance à la table SINTESI. La structure en acier permet des sections réduites et garantit des performances élevées dans la version extensible jusqu'à 300 cm. Le plateau est disponible en 6 catégories de finitions, tandis que les piètements sont proposés en 12 coloris thermolaqués.

Konstruktive Einfachheit und die Essenz der Materialien prägen den Tisch SINTESI. Das Stahlgestell ermöglicht reduzierte Querschnitte und gewährleistet hohe Leistungsfähigkeit in der ausziehbaren Version bis zu 300 cm. Die Tischplatte ist in 6 Finish-Kategorien erhältlich, während für die Untergestelle 12 pulverbeschichtete Farben zur Auswahl stehen.

SPILLO is a table with minimal volumetric presence. The underlying steel frame, with its reticular structure, features geometries designed to maximise the strength and rigidity of the top, allowing lengths of up to 250 cm. The frame and conical steel supports create an ensemble of exceptional visual lightness.

SPILLO - design 2012

SPILLO è un tavolo dal minimo ingombro volumetrico. Il telaio sottostante in acciaio, con struttura reticolare, presenta geometrie studiate per massimizzare la resistenza e la rigidità del top, consentendo lunghezze fino a 250 cm. Il telaio e i supporti conici in acciaio formano un insieme di estrema leggerezza volumetrica.

SPILLO est une table au volume extrêmement réduit. La structure inférieure en acier, de type réticulaire, présente des géométries conçues pour maximiser la résistance et la rigidité du plateau, permettant des longueurs jusqu'à 250 cm. La structure et les supports coniques en acier composent un ensemble d'une grande légèreté visuelle.

SPILLO ist ein Tisch mit minimaler volumetrischer Präsenz. Das darunterliegende Stahlgestell mit Gitterstruktur weist Geometrien auf, die darauf ausgelegt sind, die Festigkeit und Steifigkeit der Tischplatte zu maximieren und Längen von bis zu 250 cm zu ermöglichen. Gestell und konische Stahlstützen bilden ein Ensemble von außergewöhnlicher visueller Leichtigkeit.

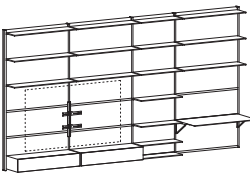

SPILLO es una mesa de mínima presencia volumétrica. La estructura inferior de acero, con configuración reticular, presenta geometrías diseñadas para maximizar la resistencia y la rigidez del sobre, permitiendo longitudes de hasta 250 cm. La estructura y los soportes cónicos de acero forman un conjunto de extraordinaria ligereza visual.

BALANCE originates from a reductive reinterpretation of the EM table, designed by Jean Prouvé around 1950: a classic of modern design, renowned for its engineered construction that reveals the flow of forces and structural stresses. BALANCE is a complete system, available in multiple materials and finishes, in fixed, extendable, indoor and outdoor versions.

BALANCE - design 2016

MR. HYDE is a collection of tables with one or more hidden discs of diameters between 48 and 54 cm. The discs can be extracted by turning them, thus increasing the available space on the table. The MR. HYDE tops and extractable discs are in 6 mm HPL, milled around the edge to a thickness of just 3 mm.

MR. HYDE - design 2012

MR. HYDE è una collezione di tavoli che nascondono nella parte sottostante uno o più dischi con diametro 48-54 cm. I dischi possono essere estratti ruotandoli, aumentando la superficie disponibile del tavolino. I top MR. HYDE ed i dischi estraibili sono in HPL spessore 6 mm che nello sviluppo del perimetro viene ridotto tramite fresatura ad uno spessore di soli 3mm.

MR. HYDE est une collection de tables de café qui cachent dans la partie sous-jacente un ou plusieurs disques avec un diamètre de 48-54 cm. Les disques peuvent être extraits en les faisant tourner, en augmentant ainsi la superficie disponible de la table basse. Les plateaux MR. HYDE et les disques extractibles sont réalisés en HPL de 6 mm d'épaisseur, qui est réduite par fraisage le long du périmètre à une épaisseur de seulement 3 mm.

MR. HYDE ist eine Kollektion von Tables, die auf der Unterseite eine oder mehrere runde Platten mit einem Durchmesser von 48-54 cm verbergen. Die runden Platten können herausgedreht werden und vergrößern so die Ablagefläche des Tisches. Die HPL-Tischplatte und die runden Platten sind aus 6 mm starkem HPL gefertigt, der Rand ist dagegen auf eine Stärke von 3 mm.

MR. HYDE es una colección de tables que esconden en la parte inferior uno o varios discos, con un diámetro de 48-54 cm. Los discos pueden extraerse girándolos, aumentando la superficie disponible de la mesita. Los sobres de MR. HYDE y los discos extraíbles son de HPL, de 6 mm de espesor, que en el desarrollo del perímetro se reduce a través de fresado a un espesor solo de 3 mm.

SPILLO, in its coffee table version, is extremely versatile in interior design projects. The wide range of configuration options, with 7 material categories for the tops and 12 powder-coated finishes for the structures, allows for maximum customisation. The tops and conical steel supports create an ensemble of exceptional visual lightness.

SPIILLO coffee - design 2012

SPILLO, nella versione coffee table, è estremamente versatile nella progettazione d'interni. Le ampie possibilità di configurazione, con 7 categorie di materiali per i top e 12 verniciature a polveri per le strutture, consentono la massima personalizzazione. Top e supporti conici in acciaio formano un insieme di estrema leggerezza volumetrica.

SPILLO, dans sa version table basse, est extrêmement polyvalent dans les projets d'architecture intérieure. Les vastes possibilités de configuration, avec 7 catégories de matériaux pour les plateaux et 12 finitions thermolaquées pour les structures, permettent une personnalisation maximale. Les plateaux et les supports coniques en acier composent un ensemble d'une grande légèreté visuelle.

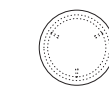

SPILLO ist in der Couchtisch-Version äußerst vielseitig in der Innenraumgestaltung einsetzbar. Die umfangreichen Konfigurationsmöglichkeiten mit 7 Materialkategorien für die Tischplatten und 12 pulverbeschichteten Ausführungen für die Strukturen ermöglichen maximale Individualisierung. Tischplatten und konische Stahlstützen bilden ein Ensemble von außergewöhnlicher visueller Leichtigkeit.

SPILLO, en su versión coffee table, es extremadamente versátil en proyectos de interiorismo. Las amplias posibilidades de configuración, con 7 categorías de materiales para los sobres y 12 acabados con pintura en polvo para las estructuras, permiten la máxima personalización. Los sobres y los soportes cónicos de acero forman un conjunto de extraordinaria ligereza visual.

DÉCO is a collection of coffee tables inspired by a style that influenced both the fields of architecture and design during the 1930s. The new metalworking technologies and the high-performing materials used, have made it possible to re-interpret a style with classical forms in contemporary profiles.

DÉCO coffee - design 2018

DÉCO è una collezione di tavolini che si ispira ad uno stile che ha influenzato l'architettura ed il design negli anni 30. Le nuove tecnologie per la lavorazione dei metalli e le alte performance dei materiali impiegati, hanno consentito di reinterpretare uno stile dalle forme classiche in geometrie contemporanee.

DÉCO une collection de tables basses qui s'inspire d'un style qui a influencé l'architecture et le design dans les années 30. Les nouvelles technologies pour l'usinage des métaux et les performances élevées des matériaux employés ont permis de réinterpréter un style aux formes classiques en géométries contemporaines.

DÉCO eine Kollektion von Tischen, die sich am Art Déco inspiriert, einer Stilrichtung, die die Architektur und das Design der 1930er Jahre beeinflusst hat. Innovative Technologien bei der Metallbearbeitung und leistungsfähige Materialien erlauben die Neuinterpretation eines von klassischen Formen geprägten Stils, die mit zeitgenössischen Konturen überzeugt.

DÉCO una colección de mesitas inspirada en el estilo que predominó en la arquitectura y el diseño de los años 30. Las nuevas tecnologías para el procesamiento de metales y las altas prestaciones de los materiales utilizados, permitieron reinterpretar un estilo caracterizado por formas clásicas, creando geometrías contemporáneas.

ECH13 echoes the construction lines of the Catilina P4 chair, designed by Luigi Caccia Dominioni in 1957, reinterpreting them in dialogue with the curved geometries of the T13 table collection. The curved line at floor level becomes a distinctive feature and connects the three load-bearing elements of the structure. The collection always features an adaptive backrest and is available in a fully removable-cover version.

ECH13 riprende le linee costruttive della sedia Catilina P4, disegnata da Luigi Caccia Dominioni nel 1957, reinterpretandole in dialogo con le geometrie curve della collezione di tavoli T13. La linea curva a terra diventa segno distintivo e raccorda i tre elementi portanti della struttura. La collezione è sempre dotata di schienale adattivo ed è disponibile in versione completamente sfoderabile.

ECH13 reprend les lignes constructives de la chaise Catilina P4, dessinée par Luigi Caccia Dominioni en 1957, en les réinterprétant en dialogue avec les géométries courbes de la collection de tables T13. La ligne courbe au sol devient un signe distinctif et relie les trois éléments porteurs de la structure. La collection est toujours équipée d'un dossier adaptatif et disponible en version entièrement déhoussable.

ECH13 greift die konstruktiven Linien des Stuhls Catilina P4 auf, der 1957 von Luigi Caccia Dominioni entworfen wurde, und interpretiert sie im Dialog mit den geschwungenen Geometrien der Tischkollektion T13 neu. Die geschwungene Linie am Boden wird zum charakteristischen Merkmal und verbindet die drei tragenden Elemente der Struktur. Die Kollektion ist stets mit einer adaptiven Rückenlehne ausgestattet und in einer vollständig abziehbaren Version erhältlich.

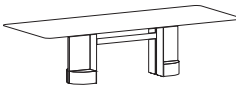

ECH13 retoma las líneas constructivas de la silla Catilina P4, diseñada por Luigi Caccia Dominioni en 1957, reinterpretándolas en diálogo con las geometrías curvas de la colección de mesas T13. La línea curva a ras de suelo se convierte en un rasgo distintivo y conecta los tres elementos portantes de la estructura. La colección está siempre equipada con respaldo adaptativo y disponible en versión completamente desenfundable.

ECH9 is inspired by the 1927 Siège pivotant, also known as LC7, the celebrated swivel armchair designed by Charlotte Perriand for her Paris apartment. In this interpretation of the swivel chair, the armrests pass below the line of the tabletop, facilitating access to the seat. The collection always features an adaptive backrest and is available in a fully removable-cover version.

ECH9 - design 2022

ECH9 si ispira alla Siège pivotant del 1927, nota anche come LC7, celebre poltroncina girevole disegnata da Charlotte Perriand per il suo appartamento di Parigi. In questa interpretazione della sedia rotante, i braccioli passano al di sotto della linea del top del tavolo, agevolando l'accesso alla seduta. La collezione è sempre dotata di schienale adattivo ed è disponibile in versione completamente sfoderabile.

ECH9 s'inspire du Siège pivotant de 1927, également connu sous le nom de LC7, célèbre fauteuil pivotant dessiné par Charlotte Perriand pour son appartement parisien. Dans cette interprétation de la chaise pivotante, les accoudoirs passent sous la ligne du plateau de table, facilitant l'accès à l'assise. La collection est toujours équipée d'un dossier adaptatif et disponible en version entièrement déhoussable.

ECH9 ist vom Siège pivotant aus dem Jahr 1927 inspiriert, auch bekannt als LC7, dem berühmten Drehstuhl, den Charlotte Perriand für ihre Pariser Wohnung entwarf. In dieser Interpretation des Drehstuhls verlaufen die Armlehnen unterhalb der Tischplattenlinie und erleichtern so den Zugang zur Sitzfläche. Die Kollektion ist stets mit einer adaptiven Rückenlehne ausgestattet und in einer vollständig abziehbaren Version erhältlich.

ECH9 se inspira en la Siège pivotant de 1927, también conocida como LC7, célebre butaca giratoria diseñada por Charlotte Perriand para su apartamento de París. En esta interpretación de la silla giratoria, los reposabrazos pasan por debajo de la línea del sobre de la mesa, facilitando el acceso al asiento. La colección está siempre equipada con respaldo adaptativo y disponible en versión completamente desenfundable.

l'altezza dello schienale consente la rotazione dei braccioli sotto il top del tavolo.
The height of the backrest allows the armrests to be swiveled under the tabletop.

ECH8 features a generously shaped seat base which, in terms of size and geometry, recalls more classic seating designs. The seat base and backrest are available with removable covers, allowing them to be washed or replaced if needed. The mechanism applied to the adaptive backrests follows and supports the movement of the back through a controlled oscillation.

ECH8 - design 2022

ECH8 presenta un fondello dalla forma ampia, che per dimensioni e geometrie richiama le sedute più classiche. Fondello e schienale sono disponibili con rivestimento sfoderabile, per consentirne il lavaggio o l'eventuale ricambio. Il meccanismo applicato agli schienali adattivi, attraverso un'oscillazione controllata, segue e sostiene il movimento della schiena.

ECH8 présente une assise aux formes généreuses qui, par ses dimensions et ses géométries, rappelle les sièges les plus classiques. L'assise et le dossier sont disponibles avec un revêtement déhoussable, afin de permettre le lavage ou le remplacement éventuel. Le mécanisme appliqué aux dossiers adaptatifs accompagne et soutient le mouvement du dos grâce à une oscillation contrôlée.

ECH8 verfügt über eine großzügig geformte Sitzfläche, die in ihren Abmessungen und Geometrien an klassische Sitzmöbel erinnert. Sitzfläche und Rückenlehne sind mit abnehmbarem Bezug erhältlich, sodass sie gewaschen oder bei Bedarf ausgetauscht werden können. Der an den adaptiven Rückenlehnen eingesetzte Mechanismus folgt und unterstützt die Bewegung des Rückens durch eine kontrollierte Schwingung.

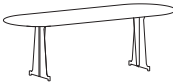

ECH8 presenta una base de asiento de forma amplia que, por dimensiones y geometrías, remite a las sillas más clásicas. La base del asiento y el respaldo están disponibles con tapizado desfundable, para permitir su lavado o eventual sustitución. El mecanismo aplicado a los respaldos adaptativos acompaña y sostiene el movimiento de la espalda mediante una oscilación controlada.

ECH7 features a compact base: the spokes, made from 16 mm profiles, curve and connect into a cross-shaped element, creating a single welded body. The adaptive backrests and large oval seat bases with removable fabric covers are available in versions with or without armrests.

ECH7 - design 2022

ECH7 presenta un basamento dal ridotto ingombro: le razze, realizzate con profili da 16 mm, si curvano e si raccordano in un elemento a crociera, creando un unico corpo saldato. Gli schienali adattivi e gli ampi fondelli ovali con rivestimento in tessuto sfoderabile sono disponibili nella versione con o senza braccioli.

ECH7 présente un piètement à encombrement réduit: les branches, réalisées avec des profilés de 16 mm, se courbent et se raccordent dans un élément en croix, créant un corps soudé unique. Les dossiers adaptatifs et les larges assises ovales avec revêtement en tissu déhoussable sont disponibles en version avec ou sans accoudoirs.

ECH7 verfügt über ein Gestell mit reduziertem Platzbedarf: Die Speichen aus 16-mm-Profilen biegen sich und verbinden sich in einem Kreuzelement zu einem einzigen geschweißten Körper. Die adaptiven Rückenlehnen und großzügigen ovalen Sitzflächen mit abnehmbarem Stoffbezug sind in Versionen mit oder ohne Armlehnen erhältlich.

ECH7 presenta una base de dimensiones reducidas: los radios, realizados con perfiles de 16 mm, se curvan y se unen en un elemento en cruz, creando un único cuerpo soldado. Los respaldos adaptativos y las amplias bases de asiento ovaladas con tapizado de tela desenfundable están disponibles en versión con o sin reposabrazos.

The design of the ECH6 collection is defined by four tapered spokes converging into the central swivel connector. The collection includes stools in two heights and chairs with or without armrests, all equipped with an adaptive backrest. The seats with armrests are designed at a height that allows rotation below the tabletop.

ECH6 - design 2022

Il design della collezione ECH6 è definito da quattro razze rastremate che convergono nel connettore centrale girevole. La collezione comprende sgabelli in due altezze e sedie con o senza braccioli, tutte dotate di schienale adattivo. Le sedute con braccioli hanno un'altezza che consente la rotazione al di sotto del top del tavolo.

Le design de la collection ECH6 est défini par quatre branches effilées qui convergent dans le connecteur central pivotant. La collection comprend des tabourets en deux hauteurs et des chaises avec ou sans accoudoirs, toutes équipées d'un dossier adaptatif. Les assises avec accoudoirs présentent une hauteur qui permet la rotation sous le plateau de table.

Das Design der Kollektion ECH6 wird von vier konisch zulaufenden Speichen geprägt, die im zentralen Drehverbinder zusammenlaufen. Die Kollektion umfasst Hocker in zwei Höhen sowie Stühle mit oder ohne Armlehnen, alle mit adaptiver Rückenlehne ausgestattet. Die Sitzmöbel mit Armlehnen sind so dimensioniert, dass sie unterhalb der Tischplatte rotieren können.

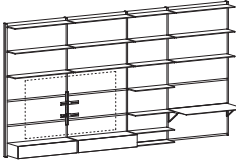

El diseño de la colección ECH6 está definido por cuatro radios cónicos que convergen en el conector central giratorio. La colección incluye taburetes en dos alturas y sillas con o sin reposabrazos, todas equipadas con respaldo adaptativo. Los asientos con reposabrazos tienen una altura que permite la rotación por debajo del sobre de la mesa.

l'altezza dello schienale consente la rotazione dei braccioli sotto il top del tavolo.
The height of the backrest allows the armrests to be swiveled under the tabletop.

ECH5 is inspired by the reduced-section steel profile structure used in the T11 table collection; the four spokes converge into the swivel connector. The seats with armrests rotate below the line of the tabletop. Adaptive backrests and removable covers are features available throughout the entire collection.

ECH5 - design 2022

ECH5 si ispira alla struttura con profili d'acciaio a sezione ridotta utilizzata nella collezione di tavoli T11; le quattro razze convergono nel connettore girevole. Le sedute con braccioli ruotano al di sotto della linea del top del tavolo. Gli schienali adattivi e il rivestimento sfoderabile sono funzionalità disponibili sull'intera collezione.

ECH5 s'inspire de la structure en profilés d'acier à section réduite utilisée dans la collection de tables T11; les quatre branches convergent dans le connecteur pivotant. Les sièges avec accoudoirs pivotent sous la ligne du plateau de table. Les dossiers adaptatifs et le revêtement déhoussable sont des fonctionnalités disponibles sur l'ensemble de la collection.

ECH5 ist von der Struktur aus Stahlprofilen mit reduziertem Querschnitt inspiriert, die in der Tischkollektion T11 verwendet wird; die vier Speichen laufen im Drehverbinder zusammen. Die Sitzmöbel mit Armlehnen rotieren unterhalb der Tischplattenlinie. Adaptive Rückenlehnen und abnehmbare Bezüge sind Funktionen, die in der gesamten Kollektion verfügbar sind.

ECH5 se inspira en la estructura de perfiles de acero de sección reducida utilizada en la colección de mesas T11; los cuatro radios convergen en el conector giratorio. Los asientos con reposabrazos giran por debajo de la línea del sobre de la mesa. Los respaldos adaptativos y el tapizado desenfundable son funciones disponibles en toda la colección.

The lightweight design of ECH4 uses reduced-section 6/12 mm steel profiles for the entire structure and for the construction of the four spokes, braced by tie rods. The collection always features adaptive backrests and is available in a fully removable-cover version.

ECH4 - design 2022

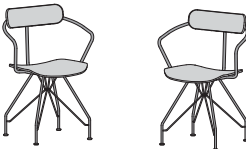

Il disegno leggero di ECH4 impiega profili in acciaio a sezione ridotta da 6/12 mm per l'intera struttura e per la costruzione delle quattro razze, controventate da tiranti. La collezione è sempre dotata di schienali adattivi ed è disponibile in versione completamente sfoderabile.

Le dessin léger d'ECH4 utilise des profilés en acier à section réduite de 6/12 mm pour l'ensemble de la structure et pour la construction des quatre branches, contreventées par des tirants. La collection est toujours équipée de dossiers adaptatifs et disponible en version entièrement déhoussable.

Das leichte Design von ECH4 verwendet Stahlprofile mit reduziertem Querschnitt von 6/12 mm für die gesamte Struktur und für die Konstruktion der vier Speichen, die durch Zugstäbe ausgesteift werden. Die Kollektion ist stets mit adaptiven Rückenlehnen ausgestattet und in einer vollständig abziehbaren Version erhältlich.

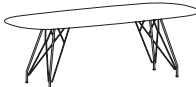

El diseño ligero de ECH4 utiliza perfiles de acero de sección reducida de 6/12 mm para toda la estructura y para la construcción de los cuatro radios, arriostrados mediante tirantes. La colección está siempre equipada con respaldos adaptativos y disponible en versión completamente desenfundable.

The steel blade, recalling the keel profile of Viking ships, is the backbone of every seat in the VIKING collection. The seat base, backrest and floor supports are connected to it. The frame is made of steel, while the seat and backrest components are available in plywood or leather.

VIKING - design 2018

La lama in acciaio, che richiama il profilo di chiglia delle navi vichinghe, è la spina dorsale di tutte le sedute della collezione VIKING. Su di essa si innestano il fondello, lo schienale e gli appoggi a terra. Il telaio è in acciaio, mentre i componenti di seduta e schienale sono disponibili in multistrato o cuoio.

La lame en acier, qui rappelle le profil de quille des navires vikings, constitue l'épine dorsale de toutes les assises de la collection VIKING. L'assise, le dossier et les appuis au sol viennent s'y greffer. Le cadre est en acier, tandis que les composants de l'assise et du dossier sont disponibles en contreplaqué ou en cuir.

Die Stahlklinge, die an das Kielprofil von Wikingerschiffen erinnert, bildet das Rückgrat aller Sitzmöbel der Kollektion VIKING. An ihr werden Sitzfläche, Rückenlehne und Bodenauflagen befestigt. Das Gestell besteht aus Stahl, während die Komponenten von Sitzfläche und Rückenlehne in Mehrschichtholz oder Leder erhältlich sind.

La lámina de acero, que recuerda el perfil de la quilla de los barcos vikingos, es la columna vertebral de todos los asientos de la colección VIKING. A ella se conectan la base del asiento, el respaldo y los apoyos al suelo. La estructura es de acero, mientras que los componentes del asiento y del respaldo están disponibles en contrachapado o cuero.

SPECIAL COLORS							

In the DANSKE collection, steel and wood are shaped to enhance their structural and aesthetic qualities. The individual three-dimensional geometries of wood and steel interpenetrate to form continuous surfaces. The solid wood parts are protected with a matt, scratch-resistant water-based coating, while the steel parts are powder-coated.

DANSKE - design 2016

Nella collezione DANSKE, acciaio e legno vengono plasmati esaltandone le caratteristiche strutturali ed estetiche. Le singole geometrie tridimensionali di legno e acciaio si compenetrano in superfici continue. Le parti in legno massiccio sono protette con vernice all'acqua opaca antigraffio, mentre le parti in acciaio sono verniciate a polveri.

Dans la collection DANSKE, l'acier et le bois sont façonnés afin d'en exalter les qualités structurales et esthétiques. Les différentes géométries tridimensionnelles du bois et de l'acier s'interpénètrent pour former des surfaces continues. Les parties en bois massif sont protégées par un vernis à l'eau mat anti-rayures, tandis que les parties en acier sont thermolaquées.

In der Kollektion DANSKE werden Stahl und Holz so geformt, dass ihre strukturellen und ästhetischen Eigenschaften hervorgehoben werden. Die einzelnen dreidimensionalen Geometrien von Holz und Stahl greifen ineinander und bilden durchgehende Flächen. Die Massivholzteile sind mit einem matten, kratzfesten Wasserlack geschützt, während die Stahlteile pulverbeschichtet sind.

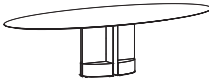

En la colección DANSKE, el acero y la madera se moldean realzando sus cualidades estructurales y estéticas. Las geometrías tridimensionales individuales de madera y acero se compenetran formando superficies continuas. Las partes de madera maciza están protegidas con barniz al agua mate antirrayado, mientras que las partes de acero están pintadas en polvo.

REFLEXO
pg. 372

CONTRAPPESO
pg. 384

REFLEXO is a reflected and indirect light lamp, a type of lighting that prevents glare while distributing light gradually. A white sheet just 3 mm thick acts as a diffuser, spreading the light across the tabletop and into the surrounding space. The lamp also features a light source in the upper section.

REFLEXO - design 2024

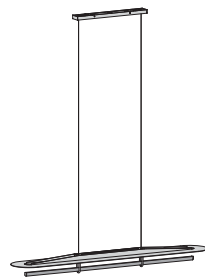

REFLEXO è una lampada a luce riflessa e indiretta, una tipologia di illuminazione che evita l'abbagliamento e distribuisce la luce in modo graduale. Un foglio bianco di soli 3 mm di spessore funge da diffusore, espandendo la luce sul top del tavolo e nello spazio circostante. La lampada è dotata di una sorgente luminosa anche nella parte superiore.

REFLEXO est une lampe à lumière réfléchie et indirecte, un type d'éclairage qui évite l'éblouissement tout en diffusant la lumière de manière progressive. Une feuille blanche de seulement 3 mm d'épaisseur fait office de diffuseur, en propageant la lumière sur le plateau de la table et dans l'espace environnant. La lampe est également équipée d'une source lumineuse dans sa partie supérieure.

REFLEXO ist eine Leuchte mit reflektiertem und indirektem Licht, eine Beleuchtungsart, die Blendung vermeidet und das Licht zugleich sanft verteilt. Eine weiße Platte von nur 3 mm Stärke dient als Diffusor und breitet das Licht über die Tischplatte und in den umliegenden Raum aus. Die Leuchte ist zudem im oberen Bereich mit einer Lichtquelle ausgestattet.

REFLEXO es una lámpara de luz reflejada e indirecta, un tipo de iluminación que evita el deslumbramiento y distribuye la luz de forma gradual. Una lámina blanca de solo 3 mm de espesor actúa como difusor, expandiendo la luz sobre el sobre de la mesa y en el espacio circundante. La lámpara también está equipada con una fuente luminosa en la parte superior.

SPECIAL COLORS

A marble or steel CONTRAPPESO keeps the lighting fixture in position. By winding the cable around the bitt on the counterweight it is possible to adjust the height of the lighting fixture. Moving the counterweight, the light source rotates around the suspension point, allowing points further away from the electrical output to be reached.

CONTRAPPESO
design 2022

CONTRAPPESO
registered community
design

Un CONTRAPPESO in marmo o acciaio mantiene in posizione il corpo illuminante. Avvolgendo il cavo alla bitta posizionata sul contrappeso è possibile regolare in altezza il corpo illuminante. Spostando il contrappeso, la fonte luminosa ruota attorno al punto di sospensione consentendo di raggiungere punti lontani dalla presa elettrica.

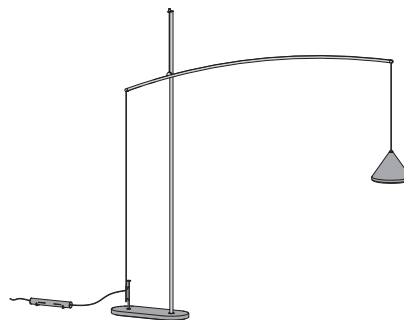

Un CONTRAPPESO en marbre ou en acier maintient le corps lumineux en position. Il est possible de régler la hauteur du corps lumineux en enroulant le câble autour de la borne positionnée sur le contrepoids. En déplaçant le contrepoids, la source lumineuse tournera autour du point de suspension, permettant ainsi d'atteindre des points éloignés de la prise électrique.

Ein CONTRAPPESO aus Marmor oder Stahl hält den Leuchtkörper in Position. Wenn man den Kabel um den Poller auf dem Gegengewicht wickelt, kann man die Höhe des Leuchtkörpers einstellen. Durch Verlegung des Gegengewichts dreht sich die Lichtquelle um den Schwebepunkt und so können auch die von der Steckdose entfernten Punkte erreicht werden.

Un CONTRAPPESO de mármol o acero mantiene la luminaria en su sitio. Enrollando el cable alrededor del bolardo del contrapeso, se puede ajustar la altura de la luminaria. Moviendo el contrapeso, la fuente de luz gira alrededor del punto de suspensión, lo que permite llegar a lugares alejados de la toma de corriente.

Tabletop materials and finishes

The following pages are intended as a guide to choosing materials and finishes for tabletops. The chart next to each material indicates the performance level of the surface, such as resistance to impact, heat and scratches. We recommend choosing the surface not only for its decorative appearance, but also according to the desired level of practicality.

Materiali e finiture dei top tavoli
Le pagine seguenti si propongono come guida alla scelta dei materiali e delle finiture per i top tavolo. Lo schema a lato di ogni materiale indica il livello di performance della superficie, come la resistenza all'impatto, al calore e al graffio. Consigliamo di scegliere la superficie non solo in base all'aspetto decorativo, ma anche in funzione del livello di praticità desiderato.

Matériaux et finitions des plateaux de table
Les pages suivantes se présentent comme un guide pour le choix des matériaux et des finitions des plateaux de table. Le schéma placé à côté de chaque matériau indique le niveau de performance de la surface, notamment sa résistance aux chocs, à la chaleur et aux rayures. Nous recommandons de choisir la surface non seulement pour son aspect décoratif, mais aussi en fonction du niveau de praticité souhaité.

Materialien und Ausführungen der Tischplatten
Die folgenden Seiten dienen als Leitfaden für die Auswahl von Materialien und Ausführungen der Tischplatten. Die Übersicht neben jedem Material zeigt das Leistungsniveau der Oberfläche, wie etwa die Beständigkeit gegen Stöße, Hitze und Kratzer. Wir empfehlen, die Oberfläche nicht nur nach ihrem dekorativen Erscheinungsbild, sondern auch nach dem gewünschten Maß an Alltagstauglichkeit auszuwählen.

Materiales y acabados de los sobres de mesa
Las páginas siguientes se presentan como una guía para la elección de los materiales y acabados de los sobres de mesa. El esquema situado junto a cada material indica el nivel de prestaciones de la superficie, como la resistencia al impacto, al calor y a los arañazos. Recomendamos elegir la superficie no solo por su aspecto decorativo, sino también en función del nivel de practicidad deseado.

Laminam IN-SIDE è un impasto ceramico di ultima generazione, la cui colorazione di superficie è presente in massa in tutto lo spessore. La superficie ha elevati standard di resistenza al graffio, e per aumentarne la resistenza all'impatto e la sicurezza in caso di rottura, lo strato ceramico è accoppiato ad una rete in fibra di vetro.

Laminam IN-SIDE is a state-of-the-art ceramic paste whose surface colouring permeates its entire thickness. The surface is scratch-proof and the ceramic layer is coupled to a fibreglass panel to increase its resistance to impact and breakage.

caratteristiche tecniche / technical features

- impatto / impact
- calore / heat
- interno / indoor
- graffio / scratch
- macchie / stains
- esterno protetto protected outdoor
- acqua / water
- acidi / acids
- esterno / outdoor

Warning: in the event of spills of acidic liquids, such as wine, lemon juice or vinegar, immediately remove the liquid from the surface to prevent marks caused by changes in the surface's level of opacity.

Attenzione: in caso di versamento di liquidi acidi, come vino, limone o aceto, rimuovere immediatamente il liquido dalla superficie per evitare la formazione di aloni dovuti a variazioni del grado di opacità.

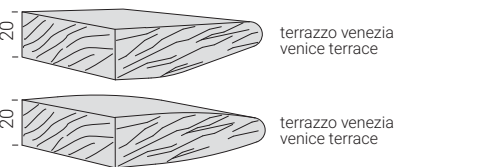

Attention: en cas de déversement de liquides acides, tels que le vin, le jus de citron ou le vinaigre, éliminer immédiatement le liquide de la surface afin d'éviter la formation d'auréoles dues à des variations du degré d'opacité.

Achtung: Bei Verschütten von säurehaltigen Flüssigkeiten wie Wein, Zitronensaft oder Essig die Flüssigkeit sofort von der Oberfläche entfernen, um Fleckenbildung durch Veränderungen des Mattheitsgrades zu vermeiden.

Atención: en caso de derrame de líquidos ácidos, como vino, zumo de limón o vinagre, retirar inmediatamente el líquido de la superficie para evitar la formación de marcas debidas a variaciones en el grado de opacidad.

Il terrazzo alla veneziana è durevole, versatile e altamente decorativo. Questo agglomerato di marmo e cemento nasce dalla combinazione di graniglie di marmo, cemento Portland e acqua, lavorati a freddo senza l'uso di resine sintetiche. Il risultato è un prodotto sostenibile, ottenuto attraverso una produzione industriale attenta all'ambiente.

Venetian terrazzo is durable, versatile and highly decorative. This marble and cement composite is created from a combination of marble granules, Portland cement and water, cold-processed without the use of synthetic resins. The result is a sustainable product, obtained through an environmentally conscious industrial production process.

Abbiamo selezionato delle pietre naturali con una palette cromatica molto ampia, ogni pietra può essere ordinata con due tipi di lavorazioni di bordo, in finitura opaca e lucida. Tutte le finiture sono disponibili in indoor, mentre solamente quelle con le migliori prestazioni di inalterabilità agli agenti atmosferici sono offerte per l'outdoor. Tutte le pietre sono protette da un trattamento antimacchia idrorepellente.

We have selected natural stones with a very wide color palette, and each stone can be ordered with two types of edge finishes, in matte and glossy finishes. All finishes are available for indoor use, while only those with the best weather resistance are offered for outdoor use. All stones are protected by a water-repellent stain-resistant treatment.
