LE KLINT

80

1943 - 2023

Made in Odense, Denmark

Celebrating 80 years of danish design

At Le Klint, we have been crafting timeless lighting designs since 1943, blending unique aesthetics with functionality.

Our lamps, made from sustainable materials, represent the Danish design tradition with high quality standards.

We aspire to lead as a Small Luxury brand in global design lighting, focusing on both private and contract markets. Our strategy involves strengthening our domestic presence, expand further into key international markets, and continuously innovate with new designs.

We are fully committed to environmental and social responsibilities to ensure a brighter future for all.

Best regards
Kim

CEO / Kim Weckstrøm Jensen

LE KLINT HISTORY

The story of Le Klint dates back to the beginning of the 20th Century when a hand pleated lampshade was folded to fit a paraffin lamp both designed by architect and master of engineering, P.V. Jensen Klint.

A team of friends and family members worked hard to refine this new shade and in return, received one as a gift of gratitude for their time. The Klint family handicraft became a real business in 1943, led by Tage Klint, who pioneered a new decisive detail to the lampshades, in the shape of an elastic collar.

LE KLINT is known throughout most parts of the world for its unique craftsmanship.

Jan Klint

NEW DESIGN LK 80, MODEL 328

Frenchman Aurélien Barbry designed this new series, LK 80 - Model 328.

The lamps are made in light and smoked oak with brass details and are based on the classic Le Klint lamp with a handfolded pleated shade.

With a sophisticated construction, the series is simple, but with a little twist at the foot. The stand is attached to the foot using an elegant brass detail, which gives the design a strong contemporary look.

SUSTAINABILITY

At Le Klint, we believe that living sustainable is important in every aspect of life. As a lighting company, we see it as our responsibility to inspire conscious choices. In terms of sustainability, many focus on a material or a product and forget the whole picture.

We believe that a long-life cycle for a product is an important part of the concept of sustainability. We have always worked with good and honest materials from our suppliers who are close to us.

We have always manufactured in Odense since 1943 and where necessary, we repair Le Klint lamps, so that they can continue to be enjoyed from generation to generations.

BOUQUET

Design: Sinja Svarrer Damkjær

Designer Sinja Svarrer Damkjær wanted to add a playful interaction to the original design, just as a single flower would sway in a fresh spring breeze.

Bouquet is now available as a Table and Floor Lamp

SHIBUI · Design: Søren Refsgaard

LAMELLA

Design: Takagi & Homstvedt

A series that started out as just pendants then evolved to include floor and table lamps

FACET

Design: Aurélien Barbry

FACET is an iconic yet simple form for a new Le Klint pendant series in metal.

The lamp has a conical shape, where the light is directed in two different directions – upwards and downwards.

CRAFTSMANSHIP

Our team of highly skilled technicians, collaborates diligently alongside innovative designers and architects to guarantee that your choice of lighting, regardless of the simplicities or intricacies of the materials used, for pendant, table or floor lamps are all perfected to the highest of standard.

This work ethic has gained us longevity and recognition as masters of our craft which has helped to accredit Le Klint, Purveyors of the Royal Danish Court.

SAX Anniversary Model

Design: Erik Hansen

As a tribute to the unique and iconic SAX lamp, a special 70-year anniversary model has been developed in collaboration with the descendants of designer Erik Hansen.

All the fine details has been enhanced with brass fittings, braided linen cord, hand-pleated paper shade, untreated and smoked danish oak.

It's all in the details

All SAX lamps
are available in
both light and
smoked oak

Model 105

Design: Mogens Koch

Model 105 has been in Le Klints collection since the beginning.

March 2nd 2023 would have been the 125th birthday of architect Mogens Koch.

To mark this anniversary we have upgraded the pendants by introducing a new hang-up system and two new XL-versions of Model 105.

CALEO

Design: Rikke Frost

SNOWDROP

Design: Harrit-
Sørensen+Samson

SWIRL

Design: Øivind Slaatto

This unusual design allows transparency in between the panels, dispersing perfect light suitable for all interiors.

LE KLINT DNA

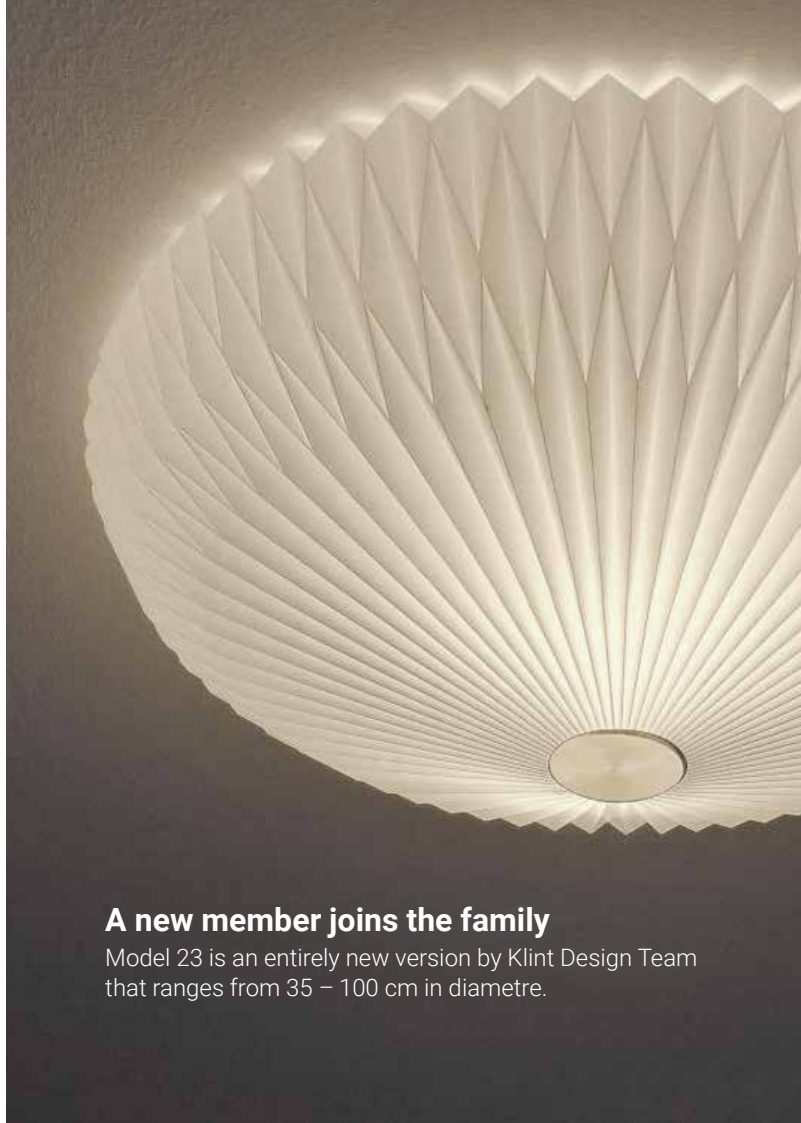

MODEL 1 MEGA

We have upscaled the iconic number one shade and made the Mega 1 versions. Everything is bigger – the pleats – side lengths and the diameter – making Mega 1 a perfect piece for BIG tables and anywhere else you have the space.

It can be a challenge to find the perfect lighting solution for spaces with low ceiling height or where the lamp should not take up much vertical space, such as bedrooms, receptions or hallways.

For many years, Le Klint has specialized in making the perfect ceiling lamps and they are a very popular part of our product range.

A new member joins the family

Model 23 is an entirely new version by Klint Design Team that ranges from 35 – 100 cm in diameter.

HEARTLIGHT

TWINKLESTAR

CHRISTMAS COLLECTION

HeartLight, TwinkleStar, Heart, Snowflake and Angel are all produced in the same principles, as our hand-pleated lamp-shades. The designs are timeless classics of traditional scandinavian christmas.

They are made to last for generations to come and by purchasing one, you are supporting The Love & Light project.

CHRISTMAS COLLECTION

SOME OF THE PROJECTS HELPED SO FAR ...

Royal Danish Ballet School, 2014

Minerva Women Centre, London 2013

Three schools, Portland, Jamaica 2017

Children Center, Fyn, Denmark, 2015

250 Candlelight lanterns were donated to terminally ill children, hospitalized in Japan

Palenque de San Basilio, Colombia 2019

Every year a percentage of the profits from the sales of the Christmas Collection is donated to help someone or an organisation with limited funds that gives back to its community, regardless of destination or race. Buying a Seasonal Fold is the lifeline of The Love & Light Project.

MADE FOR YOU

Lamps in this category are not readily available in our stock. They are produced by special order **only**.

MADE FOR YOU

A brand new logistic center was erected in 2020 where the old production warehouses stood. We are now able to house a multitude of product ranges and collections, as well as wood and metal workshops for assembling lamps in a variety of materials.

It is difficult to show the true quality of Le Klint lighting in print or even online – so, please visit your local Le Klint partner for the full experience.

You are always welcome to contact us and we will do our best to guide you in the Le Klint design univers.
